** Welcome back to NASWA
after a short absence

* * * * *

HELPING HAND: The "Helping Hand" items that appear in FRENEX are free of charge to NASWA members, and are published on a space available basis only. Items submitted for consideration must be for SW related items only, no CB, Hi-fi equipment, or other articles not related to the hobby. Descriptions must be brief, and state if prices quoted include delivery or not. All HH items should be sent to NASWA publisher, Bill Oliver, 45 Wildflower Road, Levittown, PA 19057.

LOG REPORT CONTRIBUTORS NOTE: We wish to announce that we have a change in our Distributing Editor for the Log Report sections of FRENEX. Effective immediately, all contributors to the Log Report sections are to send their contributions to the new Distributing Editor, DAVE VALKO, P.O. BOX 155, DUNLO, PENNSYLVANIA, 15930. Dave has been a NASWA member since 1976 and a regular contributor to the LR sections since joining.

David Walcutt, the retiring DE, has indicated his desire to pass this job along to someone else after having the responsibility for the past year. Much depends on the reliability of the Distributing Editor to make sure the LR section editors will receive their material as quickly as possible so they are able to complete their work within the publishing deadlines. Without the Log Report sections, FRENEX would have a lot of blank pages. Dave Walcutt has filled this need very well, and we are confident that Dave Valko will continue this tradition.

The deadline for the Distributing Editor to receive member loggings will continue to be the 12th of each month, and this means received in Dunlo, PA by that date. Reports should be mailed early enough ahead to allow time for them to arrive by that time. Past NASWA policy has been that late reports are not held over for the following month since many would be out of date by the time they would appear in print. We don't want to disappoint any contributor who has taken time to prepare a report, so we hope all will accept this reminder accordingly.

Any loggings intended for the July issue of FRENEX which may have already been mailed to Houston, TX will be forwarded on to the new Distributing Editor.

We would also like to mention another change in the Log Report sections which is presently being considered. It may be that we will divide the present LR-D section of the Log Report into two sections. In other words, instead of having all the loggings above 11700 as LR-D, it would become LR-D for 11700-17699 frequency range, and LR-E for 17700-up.

During certain months, LR-D receives by far the largest number of logging reports of all the sections. To relieve this situation somewhat, we may experiment for a month or two as to the practicality of an arrangement whereby Bob Brown continues as LR-D editor and David Walcutt as temporary LR-E editor. If this arrangement is to continue, then a permanent LR-E editor will be sought. More about this later.

A NEW FRENEX FEATURE: A new feature will begin to appear in FRENEX from time, and will be known as the "Antenna/Accessories" column edited by Mike Agner, Burlington, MA. Mike has been a NASWA member for many years, so we welcome him to the staff. This feature will not appear every month, but will be included as often as availability of material and space in FRENEX will allow.

MORE ABOUT DXATN-IV: A special thanks to those who patiently waited several weeks for a copy of the popular NASWA handbook "DXing According to NASWA" by Edward C. Shaw. We were out of the previous edition, and had been told by the printer we would have the new edition by late March, but it was early May before they were received due to some production delays.

As announced in the May FRENEX, we do have the revised fourth edition of this book in stock for immediate delivery, and all orders we had been holding have been mailed. We have plenty ready to ship at the \$4.50 price for fourth class mailing or \$5.00 by first class mail within North America.

A REMINDER: For the benefit of some of our newer members, we would like to again mention that all matters pertaining to renewals, address changes, non receipt of publications, and orders for NASWA materials should be sent to the HQ address, that being P.O. Box 13, Liberty, IN 47353. Do not send to the publisher or editors.

It's not that we do not want anyone else to receive any mail, but it confuses things and delays matters while they are being remailed. On the other hand, articles, log reports, QSL reports, and other similar member contributions should be sent to the appropriate editor rather than HQ.

shortwave CENTER

JERRY A. LINEBACK, EDITOR
P. O. Box 325
St. Joseph, Illinois 61873

JUNE 1979

WARC-79

A CONDENSED VERSION OF THE REMARKS OF
*Ambassador John A. Gronouski, Chairman, U.S.
Board for International Broadcasting, at a meet-
ing of the NATO Cultural Affairs Committee
27 February 1979*

A major link that binds together the members of the NATO Alliance is the responsibility that we share for preserving and expanding the unimpeded free flow of information. I would like to concentrate on one critical aspect on which decisions are being made at the present time, and important actions will be taken later this year. I am referring to shortwave broadcasting in the context of the World Administrative Radio Conference of the International Telecommunications Union. WARC-79 will convene in Geneva for a 10-week session this September. If its results are favorable, it will insure a freer and more balanced flow of information among the countries of the world for the remainder of this century. If its outcome is unfavorable, this vital flow could be severely restricted and our shortwave broadcasting efforts, those of the VoA, RFE/RL, BBC, DW, RCI, RN, and of our other NATO partners, would suffer.

In the field of human communications, shortwave radio plays a unique role. Technically, it is the only mass broadcasting medium capable of direct, universal, personal, and immediate communication to individuals and audiences throughout the world. Unlike standard broadcast stations in the medium and longwave bands, or TV and FM stations that can be received only over relatively short distances, shortwave broadcasting has global reach.

Shortwave broadcasts, then, differ from all other media of communication -- books, newspapers, magazines, motion pictures-- in that they cannot be stopped at frontiers, refused an entrance visa, confiscated, delayed, or censored. These broadcasts do not require the prior consent of the recipient government. Shortwave broadcasts never intrude on individual privacy. They can enter a listener's home only by invitation, by the flick of a switch, the turn of a dial. Over more than a half-century, the shortwave broadcasting bands have become a market place for ideas and information, an arena for ideological and political argument, a vehicle for news and entertainment, a channel for the dissemination of a wide variety of serious and popular cultural programs.

Shortwave broadcasting is not the exclusive domain of the more powerful industrialized nations. It is the only practical information medium at present through which the voice of the smaller, less affluent country can be heard, and can reply to the major powers. Installations are relatively inexpensive, within the means of most of the developing nations. Along with the issuance of currency and postage stamps, one of the first steps often taken by a newly independent country is the creation of a shortwave broadcasting service to communicate with its neighbors and the world.

In the open societies in which we live, we have available a wide diversity of uncensored communication and information media. But to many millions of people, particularly those living in closed societies, shortwave broadcasts are the primary source of news and information from outside. Some countries know and fear this, and attempt to block reception by jamming.

What is the audience for shortwave broadcasts? While precise figures are not available, experts estimate that of the world total of more than 900 million radio sets, as many as 300 million may be capable of tuning shortwave broadcasts. The ongoing transistor revolution and the development of miniature components have made possible the manufacture of more compact, more sensitive radios than ever before, and at a price that more people can afford. On a typical day, it is estimated that as many as 200 million listeners throughout the world may be tuned to shortwave broadcasts. This is an impressive audience.

Shortwave radio appears to be the only viable medium for international broadcasting in the foreseeable future. This is why the WARC meeting later this year is so important to the members of NATO. Let me be specific. Approximately 150 countries presently broadcast on the shortwave bands. The number of transmitters in use has increased from 300 in 1950 to 1,500

today, and the amount of broadcasting has increased five-fold since the end of World War II. Most shortwave frequencies are now being used by double, and during preferential broadcasting hours, by three and four times the number of transmitters recommended as a reasonable norm by the ITU.

The results of this congestion, familiar to anyone who has tried to listen to shortwave broadcasts, is the all too common phenomenon of co-channel interference, when an otherwise clear signal is marred or blotted out by the program of another station on the same channel. A recent survey conducted by the European Broadcasting Union concluded that reception on two out of every three channels used for shortwave broadcasting is rendered ineffective by interference. This checks closely with what the VoA and RFE/RL have found; more than half the frequencies that they use are marred by interference and this does not include those RFE/RL channels which are intentionally jammed. I dare say that you will find the situation much the same for the shortwave broadcasts of your countries. The shortage of frequencies and the resulting high level of interference has in itself become a serious impediment to the free flow of information.

Traditionally, radio frequency management has been viewed as a highly specialized technical matter. But, in the case of shortwave broadcasting, there are strong political implications. They involve the East-west ideological struggle, for more than a third of the world's shortwave broadcasting stations are located in NATO and Warsaw Pact countries. The North-South communication imbalance is also involved, for developing countries claim to have been squeezed out by the industrial nations who were there first and who have greater resources. WARC-79 thus looms as a serious three-way confrontation between East, West, and the Third World for control of broadcasting frequencies. I don't see how it can be avoided, and we must be alert to politically motivated strategies disguised as technical proposals.

We must assume that countries which maintain closed societies, resort to jamming foreign broadcasts, and exercise censorship and other media controls, are certain to use WARC-79 as a platform to press for further restrictions on shortwave broadcasting under the guise of technical proposals. The Soviet Union, for example, which recently announced the bringing into operation of 29 of the world's most powerful shortwave broadcasting transmitters, is calling for no increase in frequencies for broadcasting. The Soviets can afford to take such a position. Along with most other countries of the Warsaw Pact, they have established "safe havens" for their broadcasting by pre-empting segments of the shortwave spectrum reserved originally for other communication services, most of which have subsequently moved to satellites or other technologically advanced telecommunication systems. By resorting to a series of reservations taken at previous ITU conferences for justifying the takeover of these frequencies, Soviet broadcasts escape most of the interference that the rest of the world is encountering. Obviously, the Soviets would like to keep these more or less exclusive broadcasting enclaves for themselves and their allies at WARC-79.

In 1959, at the last ITU conference where frequencies were reallocated throughout the entire communication spectrum, the technologically advanced countries had the voting edge to sort out their differences among themselves. But voting power and patterns have changed drastically since then. Following the voting rules of the United Nations, each of the 154 members of the ITU has a single and equal vote. Togo and Fiji, for example, have the same voting rights as the United States and Russia. In recent years the non-aligned bloc has on several important issues demonstrated its ability to control the voting pattern in the ITU, and we must assume that they will be in a similar position at WARC-79.

If the Soviet proposal for no increase in broadcast frequencies were to prevail and the Third World majority were successful in forcing a redistribution of the present congested frequencies to "obtain their share of the pie" as some have already threatened, members of the NATO Alliance could expect to lose the most. If an adequate number of additional channels are not made available for shortwave broadcasting, satisfactory accommodation of the scores of "have not" nations would entail substantial reductions on the part of the few "haves". If this were to happen at WARC-79, the entire shortwave broadcasting effort of NATO members might be seriously imperiled.

What can we do to avoid such an outcome? First, we must recognize that collectively the NATO community is responsible for the bulk of the free world's international broadcasting and that this mandates responsibility for leading the conference towards an equitable solution, which at the same time, protects our interests. If we fail to assume a leadership role, free world international broadcasting could suffer irreparable damage.

Second, we must see to it through our proposals that a sufficient amount of additional shortwave spectrum is allocated to broadcasting. We should be able to demonstrate clearly that the reasonable and legitimate interference-free requirements of all countries, developed as well as developing, can be accommodated for the remainder of this century. It is a matter

of simple arithmetic that the present broadcasting spectrum must be expanded two-fold to achieve this. This would involve but a small reduction (less than 20%) in the number of frequencies presently reserved for what is called the "fixed service," which for the most part would encompass the Soviet broadcasting enclaves, making them available for the entire world. The fixed service, used mainly for commercial and military communications, has made far-reaching advances in the utilization of worldwide satellite, cable, and microwave technology, advances which have sharply reduced former needs for shortwave frequencies.

Third, if we are to gain majority support for our proposals, we must identify them with the responsible desires and goals of the Third World nations who want to improve their communications posture and want to develop a greater balance in shortwave broadcasting. We cannot hope to achieve our goals at WARC-79, I submit, unless we can gain the support of these nations or, at least, avoid their active opposition.

WARC-79

THE FINAL U.S. POSITION FOR WARC-79

by Larry Magne, 15 North Central Ave., Rockledge, PA 19111.

On 17 April 1979, an informal conference of active members of the now disbanded FCC International Broadcasting Service Group was held at the offices of the Board for International Broadcasting in Washington DC. In attendance were the Chairman of the former IBSG, Mr. Stanley Leinwoll, plus former IBSG Members, Mr. Roger Legge, Mr. Arthur Thompson (WYFR), Mr. Darrell Bauguess (FCC), and myself. An observer from the VoA Frequency Division was present; and Mr. George Jacobs, Director of Research and Engineering at the BIB, attended as guest speaker.

The main purpose of the meeting was to present to the group details of the FINAL U.S. POSITION FOR WARC-79 for high frequency broadcasting. Although the Amateur-Broadcasting share in Region 2 (the Americas) remains largely unresolved by the proposals, they are, overall, a significant positive achievement for shortwave broadcasting.

First, INTERNATIONAL BROADCASTING BETWEEN 5.8 and 22 MHz IS EXPANDED BY 93% IN REGION 2 AND 80% ELSEWHERE. This is very nearly a doubling of available in-band space.

Second, FIVE NEW TROPICAL BANDS ARE ADDED, EXPANDING THE AVAILABLE TROPICAL BAND SPACE BETWEEN 3 and 14 MHz BY 60%. NO INTERNATIONAL BROADCASTING WOULD TAKE PLACE EITHER IN THE EXISTING OR PROPOSED NEW TROPICAL BANDS.

THE PROPOSED NEW SHORTWAVE BROADCASTING BANDS ARE AS FOLLOWS:

	REGION 2	REGIONS 1,3
3.0-5.8 MHz (Tropical and International bands)	No Changes	

New Tropical Broadcasting Bands

5850-5900 kHz	+50 kHz	+50 kHz
7500-7550 kHz	+50 kHz	+50 kHz
9825-9875 kHz	+50 kHz	+50 kHz
11500-11550 kHz	+50 kHz	+50 kHz
13900-14000 kHz	+100 kHz	+100 kHz
Total addition to Tropical Bands	+300 kHz	+300 kHz

Revised International Broadcasting Bands

5900-6200 kHz	+50 kHz	+50 kHz
7250-7500 kHz	+250 kHz	+200 kHz*
9375-9825 kHz	+175 kHz	+175 kHz
11550-12000 kHz	+175 kHz	+175 kHz
13600-13850 kHz (New band)	+250 kHz	+250 kHz
15100-15700 kHz	+250 kHz	+250 kHz
17600-17900 kHz	+100 kHz	+100 kHz
19750-19990 kHz (New band)	+240 kHz	+240 kHz
21450-21800 kHz	+50 kHz	+50 kHz
25850-21800 kHz	-250 kHz	-250 kHz

Total addition to International Bands between 5.8 and 22 MHz	+1540 kHz	+1490 kHz
--	-----------	-----------

	REGION 2	REGIONS 1,3
Net addition to International Bands	+1290 kHz	+1240 kHz
Total addition to SWBC, 5.8-22 MHz	+1840 kHz	+1790 kHz
Net addition to SWBC	+1590 kHz	+1540 kHz

* Amateur Region 2 6950-7250 kHz. Assumes Regions 1, 3 elect to retain lower band limit at 7100 kHz.

COMMENTS:

1. The U.S. position calls for selective sharing between Fixed Services ("Utilities") and Broadcasting in all added IB bandspace. However, it is not considered likely such sharing will be adopted by the Conference this fall.
2. The U.S. position urges, but does not give a specific date for, the adoption of SSB for IB. Again, it is not considered likely SSB will be mandated by the Conference this fall, although some further study of the issue may be called for, perhaps for resolution at a later Broadcasting Conference in the 1980's.
3. Power limits being considered translate to 50 kW for domestic operations, and either 250 or 500 kW for international operations. If the 250 kW limit is adopted, probably some sort of grandfather clause would be included to allow existing 500 kW units to continue operating throughout their useful life.

In closing, I would like to express my appreciation to the IBSG and its Chairman, Mr. Leinwoll, plus Mr. Jacobs. The final position is one shortwave listeners and DXers can regard favorably, and speaks well of the Government's commitment to international understanding through broadcasting.

WARC-79

CANADIAN PROPOSAL FOR WARC-79

A news release dated 5 March, 1979, was issued by Communications Minister Jeanne Sauve from Ottawa. It outlines a Canadian Proposal for WARC-79 and indicates that Canada considers WARC-79 to be very important for Canada.

Among the main Canadian proposals are the following:

- that additional spectrum be allocated for mobile communications in the UHF band;
- that the standard AM broadcasting band be extended to provide for additional channels to permit coverage of areas in Canada not at present adequately served;
- that the amount of shortwave spectrum employed for international broadcasting be substantially increased;
- that additional radio spectrum be provided for Canadian and international requirements for radio communications by satellites;
- that additional spectrum be provided for the amateur radio service.

More detail on some aspects of the Canadian proposal of interest to shortwave listeners were explained in more detail.

The standard AM broadcasting band, which provides the familiar and popular radio service in the urban areas of Canada, can no longer sustain the need for new AM stations. Canada is therefore proposing that this band be extended to provide for additional channels to permit coverage of Canadian areas not at present adequately served.

Canada is also proposing a substantial increase in the amount of shortwave spectrum allocated to broadcasting. Radio Canada International will benefit from this change, particularly from the allocation of a new frequency band near 4 MHz. This new band will permit more effective coverage of northern Quebec, southern Baffin Island, and the James Bay area from the RCI transmission station in Sackville, NB.

During the public consultations, some submissions noted the important recreational and public service aspects of the hobby of amateur radio. It is, therefore, intended to make several proposals that would greatly improve the regulatory provisions for this service. Canada will be in the forefront of those countries proposing additional spectrum for this service.

One issue in the Canadian proposals is the loss to the shortwave broadcasting service

of a small segment of the frequency band near 4 MHz. Currently, the band 3.5-4.0 MHz is allocated to the Amateur Service. It is proposed to reallocate 10 percent of this band (3.95-4.0 MHz) to the Shortwave Broadcasting Service to obtain improved radio coverage of northern areas of Canada. It is considered that this change will not unduly hamper the amateur operations, and that the small loss is more than compensated for by the additional bands proposed for amateurs at higher frequencies.

At the WARC the developing countries could raise some issues of a non-technical nature relating to their concerns and the new world information and communications order. However, in the view of Canadian government officials, the WARC should be able to find ways to accommodate the requirements of the developing countries.

DX-300

REVIEWS OF WORKING MODELS OF THE DX-300

It has been reported that approximately 50% of the initial distribution of DX-300 receivers to Radio Shack dealers had a defective first IF that allowed the loop to freely oscillate. Radio Shack made an effective effort to contact all persons who had purchased defective receivers and promised to replace them with working and checked-out models. Presumably, by this time, all available DX-300s in Radio Shack stores should be working receivers. We have now received several reviews from owners and share them with you.

The DX-300: A mini-review, or going where no man has gone before. by Larry Cunningham, 4707 Hilton Ave. Apt. 3H, Columbus, OH 43228.

On January 7, 1979, after months of anxious anticipation, I purchased Radio Shack's new digital-readout DX-300 shortwave receiver. After several years of using the DX-160, I was more than ready to move up to a better radio. However, I frankly couldn't afford to shell out \$600 for the likes of the FRG-7000, modified or unmodified. So, I had stars in my eyes as I carted the new radio home and plugged it into my system. My troubles began almost immediately.

For example, I would tune to 5 MHz WWV. If I was lucky, this "heartbeat of the world" would jump right out at me. However, the normal procedure at this point is to use the MHz tuning dial to "peak" this 5 MHz band. (The preselector has already been set to 5 MHz.) I admit to minimal knowledge of the innards of a receiver, but I understand that this adjustment of the MHz dial is supposed to lock the phase-lock-loop circuit into this MHz band. When I moved the MHz dial ever so slightly to peak the band, WWV disappeared! In fact, some station like Ecos del Torbes sometimes popped in in its place! I found that by rotating the MHz dial, I could more or less systematically tune through a good part of the 60 metre band, while the display serenely continued showing 5.000. Needless to say, I was pretty upset and disappointed!

On January 16, I marched the radio back to the Radio Shack store and said, in effect, "It's broken! Fix it!" And, the store manager forthwith gave me a replacement off the shelf, promising to find the problem in the original set and get it repaired. Taking this second sample home, I ran it through its paces hoping that the original had just had a fluke problem. Nope! As soon as I installed it and tuned to 60 metres, the same problem with the tuning cropped up. "This radio has a definite problem," I said to myself.

Between January 16 and March 8, I went through three more samples including my original sample presumably repaired. All showed the same tuning problem to one extent or another. The Radio Shack people, I must say, cooperated to the best of their ability. I explained the problem to the local quality control technician, who promised to look into it. It was because of this cooperation that I hung in there hoping for a solution and a working set.

Then Dave Walcutt published portions of my note to him in the March FRENDX, describing my difficulties with the radio. That note brought quite a response! I soon learned from other DXers that the tuning problem was present in many samples, and that it was not a simple repairable malfunction, but a basic design problem.

Now, I consider myself a man of (almost) infinite patience, but enough is enough! I stormed into the local Radio Shack store on March 9 and demanded a refund. Call me a soft touch if you wish, but after speaking over the phone with Mr. Bob Thomas of the main office in Fort Worth, I agreed to try one more sample which has been thoroughly tested and found to be free of the tuning problem. I obtained that sample the next day, and I have found it completely free of the MHz tuning malfunction. Yes, Virginia, there are well performing DX-300s out there!

I have used this sample for ten days and have been unable to "fool" the MHz dial into malfunctioning. In the meantime, I have received a letter from Fred Osterman, District Manager for Radio Shack, offering to help resolve the DX-300 difficulties. Just tonight (20 March) a Radio Shack technician in Fort Worth called me to tell me they have isolated the problem (see below), and offered to send me a sample for testing purposes if I was still having troubles. The Radio Shack personnel I have dealt with to date have displayed real dedication towards coming out with a good digital-readout SW receiver, and have shown real concern about the problems which have arisen. For that I am respectful and thankful.

Now, about the cause of the DX-300s MHz tuning problems. As it was explained to me, the 52 MHz first IF stage oscillator in some samples has a tendency to become free-running, causing a failure of the phase-lock-loop circuitry to lock onto a particular MHz band. As a consequence, the receiver's tuning circuits cause unpredictable frequencies to be received in spite of the frequency displayed in the readout. The solution appears to be a modification of this first IF stage, including physical repositioning and a modified grounding arrangement. (I do not profess to have much technical knowledge regarding PLL circuitry, so I hope I got that right!). Radio Shack is now in the process of modifying the DX-300 to eliminate the malfunction.

Finally, a mini-review of the DX-300 minus the MHz tuning glitch. After operating the good sample for ten days, I have come to the following conclusions:

- 1) SENSITIVITY: Certainly adequate, and up to current standards for a modern receiver.
- 2) SELECTIVITY: Admittedly, leaves something to be desired. I ran listening tests similar to those reported by Jerry Lineback in his March article, and in summary, would say that the selectivity is about the same as, and in some cases better than that of the unmodified FRG-7000. I would strongly suggest that Radio Shack incorporate better ceramic selectivity filters in any upgraded model.
- 3) EASE OF OPERATION: With a working sample, frequency tuning is a breeze. The method is basically the same as used with most frequency-synthesis receivers; but I do wish they had included a lock-unlock light for the MHz tuning! The RF attenuator (3 position) switch and audio bandwidth switch seem to help only in extreme cases in the SW bands, but are quite helpful for DXers who also tune the standard broadcast band. The ANL position of the "Mode" switch seems fairly effective in attenuating some types of impulse noise.
- 4) STABILITY: After a one-hour warm-up period, my sample shows basically no drift over a 24 hour period. However, a certain amount of idal backlash does occur causing the frequency to drift up about a kHz a few minutes after dialing a new frequency, necessitating readjustment.

In conclusion, I would say that, in spite of problems with MHz tuning which should be resolved soon, Radio Shack has tried hard to produce a decent, competitive shortwave receiver. When the MHz tuning problem is licked and all sets are properly modified, the DX-300 would appear to be a receiver capable of competing with the unmodified FRG-7000. Considering the fact that the DX-300 retails for \$380, and the FRG-7000 for \$600, DXers such as myself with not unlimited funds would do well to investigate the DX-300 more closely. With the expected design modifications, if I had to make the choice between the FRG-7000 and the DX-300, I would save some money and get the DX-300.

BUT MAKE SURE THAT THOSE CIRCUIT MODIFICATIONS HAVE BEEN MADE!!!

The following notes on the DX-300 were also received.

I finally got my hands on a good working DX-300. My first DX-300 was defective. The problem in the MHz knob is now gone. The Wadley Loop in my first receiver was defective. Jeff White, Larry Cunningham, and I all had the same problem with our first DX-300 receivers. Mr. Frank Roberts of Radio Shack in Fort Worth talked to the three of us about our problems. The MHz knob should NOT tune in any other stations, other than the one you are tuned to. Example again: go to HCJB on 9745 kHz 0200-0700 GMT. Tune in HCJB, then turn the MHz knob, the only thing it will do is to change the S-meter reading, it will not tune in stations. If you do hear other stations (in the same MHz band) your receiver is defective. The MHz knob should change the S-meter reading and the signal strength of HCJB. I now love my DX-300 and I am going to keep it. If you would like more information on the defect in the Wadley Loop, just write to me. If you decide to buy the receiver you better ask if their problem with the Wadley Loop in the receiver has been corrected. It is a very fine receiver and I recommend the Realistic DX-300 receiver. -- Rob Harrington, President of the Colorado Assoc-

iation of DXers, 3181 South York St., Englewood, CO 80110.

. . . . I am of the opinion that my DX-300, which arrived yesterday (3-15), being more recently off the assembly line, has had better quality control, and/or has been de-bugged. The adverse reports appearing in various bulletins must have been caused by faulty or hurried production, not unusual with a new product. I can find very little to fault, mostly in design, not performance. Sensitivity is outstanding. Selectivity is quite good, a strong signal covers only 8 kHz. Two medium strength signals 5 kHz apart can be separated nicely. It's selectivity is superior to that of the FRG-7, but serious DXing will require a sharper filter, as do most of the new rigs. The audio offers a three position bandwidth, and is excellent. SSB and CW tune very professionally and exhalted carrier tuning is very effective. Side by side comparative operation with my Dymek DR-55 fails to downgrade the DX-300 in any way. Negative features encountered include a rather sloppy calibration of the preselector drum, and a rotary switch frequency control would have eliminated the need to retune the MHz dial after having tuned in the signal on the kHz dial. The DX-300 is a business-like piece of gear, both to operate, and to look at. I am very pleased with it, and it immediately goes into surgery for a Collins filter implant. If I am correct in my assumption that the early models may have been faulty, avoid or double check all serial numbers lower than 8-00762 (the number of my receiver). --From the San Diego DXers Club, Larry Brookwell, 1826 Cypress St., San Diego, CA 92154.

I am 100% satisfied with my DX-300 receiver. I had a friend who has a FRG-7000 try out my DX-300 and could find very little difference between the performance of each set. I would not hesitate to recommend this model. -- L.P. Benjamin, 3986 Mesa Circle #201, Lompoc, CA 93436.

THIS & THAT

Your editor recently had a chance to tune the Radio Shack DX-300, one that worked this time. In general, my observations concur with those comments made earlier in this month's SWC by several users. The DX-300 will probably find favor with those who want digital readout instead of the FRG-7, but do not want to pay for the

clock timer on the FRG-7000, that runs the cost of that machine \$200 or more above the DX-300. Serious DXers may find the DX-300 very useful if selectivity modified. Time will tell, we would like to have more reviews on the DX-300.

HELPING HAND: Tom Mooningham, P. O. Box 8512, Camp Lejeune, NC 28542 wants a Hallicrafters S-38 B, C, or D in good condition and a Hallicrafters SW-500 in good condition with manuals if possible. Tom has available about 10 extra Radio Moscow QSL cards in various styles, one per request if you send a SASE.

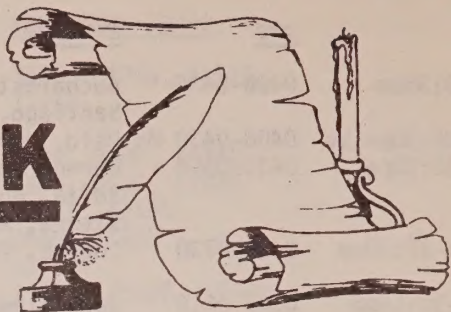

QUESTION: Bob Rankin, 920 Rockledge, Lawrence, KS 66044, writes that he recently received a packet of old QSLs from the late 50s and early 60s. Among them is a strange one 'verifying' a VoA transmission. On June 14, 1961, I had received transmissions from an obviously experimental U.S. shortwave station using the callsign WW2XAJ on what my log lists as 11.925 MHz. Since my equipment at that time was not terribly well calibrated, I cannot be certain if this is exact. Clearly, the station was well within the 25 metre band. I have no notation on whether the ID was voice or CW, nor do I remember what, if any, programming was carried. On a hunch that these were tests similar to those carried out a few years earlier by VoA's KK2XEZ at Dallas, TX (VoA's first 500 kW transmitter), I sent a reception report to VoA. They "verified" about a month later with a QSL that was entirely blank except for the date of reception -- no freq. and no location. It seems likely that the transmissions were not theirs at all and that they were as baffled as I was. But the question remains: What and where was WW2XAJ? Can anyone help?

Donald Erickson, 6059 Essex St., Riverside, CA, 92504 (714-687-5910 0100-0700 GMT) sends the following: Nearly 500 copies of the 1979 WRTVH were shipped with profits going to the Handicapped Aid Program. In order to make more secure arrangements for Air Freight shipment of copies of the 1980 WRTVH, orders are being taken now. Initial orders will be taken at \$11 per copy including UPS or Book Rate shipping when received sometime in 1980. The \$11 price can be Guaranteed only through 31 July 1979. The offer will be extended after that only if there is no announced price increase for the 1980 edition. This offer will therefore expire on 31 July or immediately upon notification of a list price increase thereafter. Please send orders with check or money order in U.S. funds and a SASE for confirmation. Please mark lower left of envelope WRTVH-80. Immediate refund anytime. 1979 WRTVH available for \$14.

Thanks to our contributors this month. 73 till next time, JAL

PROPER CREDIT Other publications and broadcasters may use material from LN provided due credit is rendered to the original reporter and the NASWA Listeners Notebook. This courtesy does not extend to closed organizations which do not allow reciprocal access to their publications. BBC Monitoring Service items are copyright and may not be further reproduced without BBC MS permission. All times, days and dates are day/month GMT, u.o.s. All contributions to LN are gratefully received! Please enclose an SASE of SAP if you want a personal reply. Please do not ask me for advice on receivers (gh)

ENGLISH SCHEDULES ALGERIA RTVA has EG at 2000-2030 on 9610, 11740, and one other freq (R. Moscow DX 29/4) Combining Soviet and Algerian disregard for accuracy, this item must be considered quite doubtful (gh)

AUSTRIA ORF has made it harder to pick EG out of its frequency schedule, but here's what I come up with for J79: 0830 on 6155 15410 21735 21610. 1230 on 9770 6155 17860 21610. 1830 on 6155 21740 15435 15560. 0130 & 0330 5945 9770. 0430 on 15260 21575. To Nam underlined. Not including DX pgm at special times (gh)

BANGLADESH RB OS: 0445-0515 15400 17890 21685; 1230-1300 15335 21670; 1815-1915 11765 15285 However, 1230 obs on 15285, not 15335 (Bob Padula, R. Australia DX 22/4)

BRAZIL As of 14/5, RNB shifted off KGEI's 15280, to R. Sweden's 15290 at 0200-0300 (Joe Tangredi, NV; Jim Conrad, IA; David Reinbold, AZ; Steven Shaffer, IN)

BRUNEI At considerable variance with sked in WRTVH 79 is this from R. Brunei on 7215: 0400-0630, 1458-1630, 1900-2100 (via Baxter Hensley, TX, SPEEDX May) You know why? Because this is in local time of GMT plus 8, without being specified as such. So in GMT it would be 2000-2230, 0658-0830, 1100-1300, indicating some changes compared to WRTVH (gh)

BULGARIA R. Sofia summer sked as from 19/4: to BI 1930-2000 11720 9700, 2130-2200 15135 11750; NAM 0000-0100 15330, 0430-0500 11750 (BBC MS 26/4) I have also observed this to be correct in mid-May; nevertheless, they were announcing a sked several months out of date (gh)

CANADA RCI J79, Sackville site only: 0615-0630 & 0645-0700 Mon-Fri 11960 9655 9635 6140. 1545-1559 & 1645-1659 17820 15325. 1800-1829 & 1900-1929 17820 15260. 1900-1929 17875 15325 2000-2029 17820 15325. 2130-2157 17780 15150 11940 (Sat & Sun also on 17820 15325). 0000-0027 5960. 0100-0127 17820 5960. 0200-0227 11940 5960. 0300-0327 11940 11845 5960. 0400-0427 11845 9535 5960. CBC Radio "World @ Six" & "As It Happens" Mon-Fri: 2100-2300 17820 15325, 2200-2400 5960. CBC Northern Service (not all English) 1028-1300 9625 6065, 1300-2300 11720 9625, 2300-0507 9625 6195 (RCI) First evening everything was backwards (gh)

CHINA R. Peking new sked as of 19/4: ANZ 0830-1030 9460 11600 11735 15135 17635. SAs 1400-1600 9860 11650 15315. EASaf 1600-1800 9860 15315. W&NAf 1930-2130 9880 11695 15100. Eu 2030-2230 6860 7470 11500 (SCDX 15/5--sorry, didn't catch contributor; nice of them to omit NAM)

CUBA R. Moscow relay seems to follow this sked: 0100-0500 and 1000-1300 on 9600; 1330-2200 on 11840. However, 9600 carrier is on for long hours besides: (gh) OC on 9600 from 0647 tune-in to 0748*, *0947 with tones 14/5 (Dave Walcutt, TX)

CHILE LVGH monitored as follows 10-13 May: 2230 17800. 0000 17800 15140. 0130 17800. 0230 17800 11765. 0400 11765. 0530 11765. Also sked at 1100, 1300, 1400, 1700, 1930, 2100 but not hrd (Rob Harrington, CO) Also on 9560 2/5 at 0400 (Harrington) On 11755 at 0400 (Arthur Cushen, NZ)

ECUADOR HCJB 17860 1600* 16/5 closing EG to NAM claiming still to be on 17890, where they indeed ought to be as RFI caused great RFI in its own NAM svc now on this freq past 1600(gh)

ETHIOPIA VORE on 9612 at 1400-1500, SINPO 55445, fading out about 1440 (John Rossi, MS) I have had no other reports of EG at this time instead of 1500-1600 and wonder if misconverted; and if 9612 was actually 9615 as usual (gh) Now on 9560//7165 (Yeo & Nicholls, R.A. DX 13/5)

FRANCE The Horaire Generale for J79 shows Paris Calling Africa at 1600 on 11845 15155 15300 17720 17850 21580 21595 21620 21675. Another of their skeds adds 17775 and 17860, which are used in FR to NAM past 1600 except on Sats (Wilder A. Pickard, IL) No PCA hrd on NAM fqs(gh)

GERMANY EAST RBI hrd on 9730 15/5 announcing new // 11970 ex-11805 at 0100 & 0230 to NAM, but

USELESS due to jamming against R. Liberty; and RHC. As happens every summer, the 0330 xmsn supposedly to WNA, on 11890, comes in better in ENA than the xmsns intended for here (gh)

GERMANY WEST DW J79 shows a few changes with respect to sked in WRTVH: As 0120-0220 15239 (sic) ex-6065; 1730-1750 21620 ex-7160. Waf 1200-1245 17875 ex-17800. C&Eaf 1715-1805 21600 ex-17730; Waf 1930-2000 drop 9765; NAm 0530-0550 11905 ex-6100 (gh)

GRENADA R. Free Grenada per monitoring is on 15045 every day 1945-2240; after 2300 on 15370 (Peter Bunn, R. Australia Japanese DX Time 29/4) They cannot be pinned down so easily (gh)

GUAM KTW: 1000-1057 11840; 1430-1500 11730 15225; 0000-0130 17855 (Miki Vcelar, RSA, DX Ontario May) I assume this was pre-J79 (gh)

GUATEMALA TGNA on 3300, 5955, 9505, has EG at 0300 (Sun 0030)-0430 (Eric Bryan, WA, and Rick Worrel, ND, May SPEEDX)

HUNGARY R. Budapest J79: Daily 1030-1100 ANZ/Japan 21525 17785 15160 11910 9835 9585. Mon-Fri 'Eu & Scandinavia' 1200-1220 15160 11910 9833 9655 9585 7155. Mon-Fri As 1430-1500 17785 15160 11910 9835 9585 6110. Daily Eu 2100-2130 15220 11910 9835 9655 7200 6025. Tue-Sun NAm 0200-0230 & daily 0300-0330 NAm 17710 15225 11910 9835 9585 6105 (Budapest International) 17710 and 15225 usually best now; note old 9833 now given as 9835. Still missing from sked is EG pgm by Hungarian service on history of the country, same fqs Mon 0400-0430, Wed & Fri 0130-0200; other days at these times in Hungarian (gh)

IRAN Voice of the Islamic Republic of Iran has replaced 9022 with 9140, including EG at 2000-2030 (Noël Green, BBC WRC 14/5) 9138 (BBC MS 26/4) 9139 (BBC MS 5/79) More or less (gh)

ITALY RAI J79: 1935-1955 GB 11800 9710 7275. ME 2025-2045 11800 9575 7235. Japan 2200-2225 15315 11905 9710. NAm 0100-0120 15315 11800. ME 0350-0410 17795 15330 11905. Medit. Basin, also in IT 0415-0440 7275 5990 (RAI)

JAPAN R. Japan now on 15270 as only 19m freq to NAm, for GS 05, 06, 07, 19, 20, 21, and Regional svc 2345 & 0130. GS at other times on 17755 or 9505 to kms. Full RS sked in EG: MEANaf 2015-2045 15135 9700. NAm 2345-2445 17825 15270. 0130-0230 21640 17825 17725 15270. Eu 0800-0830 21610 17710; 1830-1900 15420 11855. ANZ 0930-1030 15235 11875. SEAs 1115-1145 11875 9675. SAs/af 1630-1700 11705 9670 (via Charley Hoffman, PA)

KOREA SOUTH R. Korea announced this new sked 7/5; note a new xmsn to NAm at 2300 and new services to Af and SEAs. Freqs increased from 9 to 22, many out of band--General Service: 0230 7275 9640. 0430 9640 17740. 0730 7275 9640 11810. 2300 15385. SEAs 1130 9525. 1400 11665. Af 2000 11525. ME 1600 6480 9870. Eur 0730 15570 17860. 1400 9870 12090. 2000 7550 9870 15570. 2300 7275 7550. LAm 0230 15350. 1000 9580 11725. 1800 15255. NAm 0430 on 9755 (blocked by AFRTS), 15345 (only NZ hrd, but R. Korea audible on GS 17740 mixed BRT). 1600 9720, 11830 (over VOA). 1800 11830 (best). 2300 15345 (Norway blocks), 17860 (mixed NZ) (Wilder A. Pickard II, Evanston IL) 11830 good at 1800-1830, new freq, 13/5 (John Findlater, CA) Noted on new 6015 at new time 1100 (Stu Klein, FL, 30/4) But not on sked above (gh)

LEBANON R. Lebanon on new 15285 to NAm 0230 (not at announced time of 0130!) (Joe Tangredi, NV, 7/5, gh) ex-15440, splash from Brazil, but good signal (Jay Novello, NY, 8/5) 1830 to Af now on 21610 (Noël Green, BBC WRC 14/5) EG at 0000 21/4 on 17715 (Don Mitchell, Victoria ADXN) That would be a new time, but not hrd at all on this freq in a J79 check (gh)

MONACO TWR plans to change freqs as of 3/6, 0930-1000 Mon-Thu, 0800-1000 Suns, on 11705 ex-9610 (Bob Padula, ADXN)

NEW ZEALAND RNZ J79: 1800-2105 11835. 2115-0815 17860. 1800-0625 15345. 0640-1030 6105. 0830-1215 11945. 1045-1215 6105. These may carry thru S79 (RNZ) Mostly EG but some Pacific langs inserted at various times (gh)

NIGERIA FRON IS = Voice of Nigeria has expanded to: Waf on 7255, 0455-0600, 0800-0900, 1600-1700, 1900-2030. Naf & Overseas (Eu & ME) separate pgms on 15185 15120 at 0455-0630, 0830-1000, 1800-1900, 2100-2200. C&SAf on 11770 at 1755-1930, 2030-2200. These last two include some UN Radio pgms to RSA in non-EG langs (VON via BBC MS 4/79)

NORWAY (Cf Apr LN-3) R. Norway J79 on only 3 fqs at a time, Suns & GMT Mons: 0800 9590 15135 21655. 1200 6015 15345 21730. 1400 9590 17840 21730. 1600 15175 17755 21730. 1800 15175 15345 21730. 2000 11850 15345 15175. 2200 15175 15345 17795. 0000 9605 11860 15345. 0200 9610 11860 11870. 0400 9645 11860 11895. 0600 11860 15170 21655 (via Pete Grenier, CA)

PAKISTAN R. Pakistan J79: 0230-0245 21590 17830. 1005-1010 & 1100-1115 21655 17662. 0900-0905 21590 17640. 1040-1045 21450 17640. 1600-1615 21755 21545 21485 17665 17640. 1645-1650 21605 17640. 1700-1730 15470 11675. 1737-1740 21545 17665 (BBC MS 5/79)

PERU R. del Pacifico has EG 0130-0200 weekdays--variety designed mainly for the American community in Lima, but also on SW 9675 and 4975. MC is a woman interviewing various important personalities; Sometimes plays excerpts from the VOA Magazine Show (Kevin L. Meyer, Lima)

SOUTH AFRICA (Cf April LN-3) R. RSA definite J79 sked matches; however for NAm at 0200, 500 kW has been moved from 9610 to 5980 where it can do more good (gh)

SWITZERLAND SRI J79: 0700-0730 9560 11780 15305 21520. 0900-0930 same. 1100-1130 15430 17795 21520 21630. 1315-1345 15305 15165 17735 21520 21545-SSB 21570. 1530-1600 15125 17830 21570. 1815-1845 17830 17730 15125 21585. 0145-0215 6135 9725 11715 15305 15130-SSB. (more)

0430-0500 9725 11715 15305-SSB. The 07, 11, 1315, 1530, 1815 are also on omni 3985 6165 9535 (PTT) For a change the SSB fq is best at 0430, tho unseems with a weaker stn providing BFO, whilst 11715 QRMd, 9725 jammed due to RFE--why does SRI use it every summer? (gh)
UN Radio noted testing in EG on SSB 7443 at 1730-1835 (Robertson, England, SGDX 8/5)

TAIWAN VOFC on new 11745 from 1/5 at 2140-2240 to NAM/ANZ, along with 17890 11825 9685 (BBC)

UKOGRANI BBC now sending to preferred individuals (e.g. WRC members), much more geographically detailed skeds from which we learn e.g. that 21710 is for WNAW at 1330-1615 as is 11750 from Singapore; 6175-Antigua to WNAW from 0330 to 0730, tho supposedly continuing to E&CNAW 2300-0730. None of the Sackville relay fqs are designated for WNAW, just E&CNAW. Intended for CAM, Carib and NWSAW are 21710 at 2000-2245, 15215 at 1100-1330. 9580-Ascension is for SAM only, 2300-0330. Also 21550 from UK at 1100-1330 for CAM, Carib, NWSAW. 21660-Asc, often better than any other freq here 1100-1615 is actually for C&SAF (gh)

U S A WYFR at 0100-0500 to "Mexico" in EG instead of planned 5985 continuation is on 9715 instead, apparently to avoid QRMing R. RSA 5980 (gh)

AFRTS J79 with amendment: 21570 1800-0430, 17765 1600-0700, 15430 1100-2400, 15330 1200-0100 & 0430-0700, 11805 1400-1800, 11800 1300-1400, 11790 1800-0200, 9755 0200-0700, 9700 1100-1600, 6030 0200-0700 & 1000-1100 (VQA fq sked & Louis Goldstein, R.I.B.)

U S S R R. Moscow since 19/4 Pacific Coast service now at 0400-0800 ex-0330-0730 (BECMS 3/5) R. Moscow on 9710, and R. Nederland was on 9710 too instead of 9715, for 0530-0625 xmsn 12/5. (Ralf Munster, Decatur GA) British service at 1900-2000 now on 7390, 7420, 9490, 9685, 9765, 11880 and 1143 kHz (SGDX 8/5, reporter missed) see also CUBA below

R. Kiev noted at 0030 15/5 on 15525 11735 9800, at 0300 7/5 on 11830 11735 9800, tho announcing old sked not including two of these best fqs! R. Vilnius hrd at 2300 14/5 best on 15525 11735, also announcing 17870 11790 15180 15405 (gh)

YUGOSLAVIA R. Yugoslavia J79: 1530-1600 15295 15240 9620. 1830-1900 11735 9620 6100. 2000-2030 9620 7240 6100. 2200-2215 9620 7240 6100 1268 (BBC MS 3/5)

OTHER SCHEDULES ARGENTINA R. Rivadavia sked: Mon-Fri 1100-1200 & 2300-0400; Sat 2200-0400, Sun 1800-2400 on 5882 & 10680 (Hector Sly DXO)

BANGLADESH RB DS J79: 0000-1730 on 4890 (100 kW), 0000-0430 3965 (7½), 0600-1300 7245 (10), 0600-1315 9550 (7½), 1315-1730 4880 (10), 1330-1730 3965 (7½) (CMS Telegram 14/5)

BOLIVIA Skeds for the past 3-4 months have been changing almost weekly, partly due to the disastrous floods of early January, but have now more or less settled down as of 17/4. Here are the latest amendments to the WRTH:

3355 R. San Miguel, Riberalta ex-3370 /3353 at 2230 --Tunér, DX Juke Box 10/5/

3396 R. Charcas, Monteagudo ex-3425 (3396 is nominal, 3425 probably due to xmtr fault)

3480v R. Padilla, Padilla. s/on 2300, ex-*2315

4697 R. Riberalta, Riberalta, noted here since shortly before Easter, ex-4775; probably faulty xmtr, as still announcing the former frequency

4737 R. Mamoré, Guayaramerín, s/on now 1130, ex-*1100; s/off remains 0300v, tho Sunday pgm ends at 0100 (Mon GMT) 4750 nominal.

4755v R. En. Bolivia, Oruro, Sun s/on 1000, ex-*0900, otherwise unchanged

4823 R. Grigotá, Santa Cruz de la Sierra. Sun sked now 1000-0015v

4845 R. Fides, La Paz, reactivated this fq during Feb after long absence. MW sked is 1000-0330, but SW is morning and afternoon only, tho was on continuous sked during Easter week

5020 R. Dos de Febrero, Rurrenabaque. Split sked: 1100-? and ?-0230 /5568 Cochabamba -Tunér/

5568 R. Aroma (location unknown) 2300/2315v-0130. Almost entirely in Indian languages.

5582 R. San José, San José de Chiquitos. Weekday sked now 1130-2200v /unID 5626 0020* -Tunér/

5660 R. Machuco now believed the correct name, not R. Pacheco. In San Ramón, Benf. 2315-0200v

5870 R. Corocoro, new stn in Corocoro, La Paz, 2200-0200v

6093 R. Stantor, La Paz, ex-6091; still 6125 nominal

6146 R. Luis de Fuentes, Tarija, ex-6210; still 6140 nominal

6220v R. Nuevos Horizontes, Tupiza, 1979 sked: 1045-0100 (Sun 1200-1930).

Inactive, as of 16/4: 3280 R. Chaco, 4808 R. La Voz de la Frontera, 4915 R. Amboró, 5045 R. Altiplano, 5312 R. Roboré, 6185 R. Batallón Colorados, 9607 R. Piraf. Very irregular: 4853 R. Centenario, 4965 R. Juan XXIII, 6005 R. Progreso (Tony Jones, Paraguay, u.o.s.)

CAMBODIA Phnom Penh is on 9695 at 1100-1500 with a new xmtr (Yoshiaki Hayashi, JADX, via Victor Goonetilleke, R. Nederland DX Juke Box 26/4)

CHINA Recently received Yunnan PBS sked: Channel One, 2215-0600 (Tue 0800), 0920-1605 on 4760 2460 in Std Chinese, including ½hr relays from R. Peking 2230 & 1200. Channel Two, 2225-0230 on 6937, 5960, 2310; 0325-0530 & 1055-1605 on 6937. Additional Channel Two pgm at 1225-1430 on 5960 2310, majority in local dialects--Dehong Dai, Jingpo, Lahu, Nujiang Lisu and Kishuangbanna Dai. Ch. Two also contains pgm directed against the 'defeated remnants of Chiang Kai-Shek's troops outside Yunnan', 0130-0230 on 6937 5960 2310, 1100-1200 6937 (BECMS)

CUBA Preliminary obs of RHC ES indicate considerable changes. To ME & En: 1500-1600 AR, 1600-1700 FR, 1700-1800 EG on 17710. 1800-2000 SP & 2000-2100 PT on 17710 & 11860. 2100-2200 FR 17725 11700. 2200-2300 EG 11700 (BBC MS 10/5) They say nothing about these being relays from USSR! The FR at 2100 on 17725 is not // 17705 & is suspected EEU site (Noel Green, BBC WRC 14/5) 17750 noted at 2045 going from RHC PT to Mayak (Ginbey, RSA, SGDX 15/5)

DENMARK DR is now on 15165 again for all broadcasts, from 0900, and between 1100 and 2100; the 1700 has changed to 1730; all in Danish (DR; Erik Kjøle, SCDX 8/5)

DODECANESE ISLANDS VOA 50 kW sked J79 for those who would get a kick out of hearing Rhodes xmsn even tho the pgms do absolutely nothing to propagate Rhodian culture--- 6015 1615-2200. 7110 0345-0600. 7205 1615-2200. 9715 0400-0600. 9760 0140-0400 (VOA sked)

SRI LANKA VOA J79 does not list any 10 kW xmsns from Colombo, only 35: 7110 0100-0330 & 1245-1800. 11760 0100-0330. 11935 1240-1800. 15185 0100-0330. 15395 1540-1800. 15405 1245-1530 (VOA)

(Sat/Sun 0800-)

SWEDEN HS Pgm-I SSB J79 as amended: 0630-0800 21550 800. /0930-1200 21555 1100. 1200-1600 21555 1700. 1600-1800 21490 1700. 1800-2000 21700 2500. 2000-2130 15190 2500 (STA)

SWITZERLAND SRI J79 SSB extended to NAM: 1315-1515 21545. 0145-0415 15130. 0430-0630 15305 (SRI) 21545 is useless as 21570 is always better with much higher power on AM; 15130 is useless due to jamming/QRM against R. Liberty; but 15305 is OK (gh)

U S A VOA inaugurated a service in Persian 8/4, 1830-1900 on 21600 15155 9715--international news, news-related features and items on the US, amounting to 3h 30m per week (BBC MS 19/4) VOA J79 shows 21600 as Tangier 35 kW, 15160 ex-15155 as Kavalla 250, 9715 Kavalla 250. In keeping with ICA's knee-jerk policy of ignoring 'friends' until they turn into enemies (gh)

U S S R R. Moscow's twice-weekly news in RS to the western Arctic & Antarctic announced that from 19/4 it would be on 9590 9480 7120, still Mon & Thu 1530-1600 (BBC MS 19/4)

VATICAN RV J79 on new 15285, ex-15120 SP 2300, PT 2330-2355, good sigs in Melbourne (Bob Padula, 8/5) Also noted here (gh)

VIETNAM (Cf May LN-3) Phu Khanh is new stn, hrd weak at *1030-1400* on 5139, opening with Hanoi Pgm-I relay and cutting away for own pgm at 1200-1230. VOV in Ho Chi Minh City is on 6166 & 9622 until 1625* including local pgms at 1145-1400 & 1515-1600; relay Hanoi news 1100-1145 & 1600-1625, relay Hanoi People's Army & News 1400-1515. VOV Pgm-I (or, it seems, only pgm, as Pgm-II no longer obs), *2110-1625*. Language lessons have been moved onto I from II; 2115-2130 FR, 2130-2145 EG, 2145-2200 RS. Std Chinese unfound. 4945v 6450v; 10060v is apparently off the air in the morning. Local stations: Gia Lai-Kong Tum 4762 hrd weak around 1045. Hoang Lien Son on 5603 weak but constant at *1200-1315*. Son La on 4770/6330. Cao Lang untraced, apparently closed. Nghe Tinh, Lai Chau, Vinh Phu, Ha Bac untraced (Isao Ugusa, DX Front Line 3/5)

MISCELÁNEA RADIAL

ALBANIA Tirana sometimes hrd with DS on 20228, 4 x 5057 e.g. 1730 31/3; usually weaker and less regularly than x 5, 25285 which is probably the most consistent harmonic around, SINPO 44444, e.g. 31/3 1645 before 5057 fades in afts (Andy Sennitt, England, WDXC MM) 25285 hrd on good days here (gh)

ALGERIA Algiers FR svc hrd 1455 1/4 on 19020 //251, 2 x 9510 unhrd at this time (Sennitt MM)

ANTARCTICA AFAN McMurdo on SSB in EG on 6012, excellent 0805-0930 tho w/increasing het QRM. Country mx, wx, ID at 0859 11/4; also hrd well 0810-1040 20/4 (David Nicholls, ACT, ADXN) EG pops 0730, peaking 0800 23/4 w/AFAN jingles, and wx report at 0815 (Leigh Morris, NZ, ADXN)

BRAZIL R. Triângulo Mineiro de Uberaba on 4965 now IDs with the new name R. Sociedade de Uberaba. R. Record de São Paulo now 50 kW on SW. R. Panamericana de São Paulo on 6055 and 11965 is now R. Record (Emilio Pedro Povrzenic, Asociación DX del Litoral Apr/May) ZYF905 on 3245 hrd at 0830; it's R. Aruanã, not Araunã as in WRTVH 79 (Povrzenic, ditto)

R. Nacional, Brasília reported 10/4 that Radiobrás had put five new SW xmtrs into operation, designed to broadcast special pgms in the langs of Brazil's leading trading partners to promote Brazilian exports. Beamed to S/C/NAM, WEu, Arab countries, and India (BBC MS 19/4) So far I haven't heard a hint of more than one xmtr on the air, and in EG only (gh)

CANADA Last week CFRX suffered a minor problem with their antenna. One of the towers got damaged and became completely out of phase. Has been operating on a temporary make-shift antenna until they can repair the damage. They have scheduled a day this week to go off the air so as to repair the damage. This accounts for their lousy signal lately (CMS 14/5)

CHINA Recent changes in CPR foreign policy have affected the FEBC ministry. HK staff once received an average of 18 letters a year; in the first 21 days of March, 2368 letters (FEBC via Marlin A. Field, MI) In a report on the 'avalanche' of mail now received from listeners in China, R. Australia stated that the majority came from southern China, where its signals were much clearer. RA has been unable to transmit an adequate signal to northern China since 9/74 Hurricane Tracy destruction of its three Darwin xmtrs (BBC MS 3/5) RA says they used to get 50 letters a year from China, but since opening a PO Box in Hong Kong they're getting 5000 a week, more than they can answer, so they have had to stop giving the box number on the air (Alan Roe, Herts, May REVIEW OF INTERNATIONAL BROADCASTING) China hrd on 30027 kHz with Chinese-English lessons up to 0540 and closing after Chinese music at 0600 (Arthur Cushen, NZ)

COMORO ISLANDS Moroni, 7260, hrd with local mx and vernacular anmts 1440; ID and fqy anmt 1456, then xmtr off in mid-pgm. Clear channel but for some jamming 31/3. Audible most nites with mx showing East African and sometimes slightly Indian influences - rather Malagasy in style. S/off varies between 1455 and 1500 (Robert Yeo, Victoria, May ADXN) Should be possible in WNAM a bit earlier (gh)

COSTA RICA R. Casino anc'd 17/4 that it would be off the air on MW & SW 1200-2400 Fri & Sat for duration of campaign to save electricity, but would continue on FM. 5955, 1175, 98 MHz (BBC MS 19/4)

CUBA RHC noted closing EG at 1800 on 29055A, presumably 3 x 9685 (SWNS) New time (gh)

DOMINICAN REPUBLIC (Cf Apr LN-7) LVFA was heard 3/4 with band mx, IDs, SIO 423 on 4825 (John C. Merrill, Bartlesville OK, May ASWLC)

ECUADOR R. Quito has been jumping around between 4920 and 4875, but seems to have stabilized slightly on 4920. I hrd it on 4875 weekends, but usually 4920 rest of week (Kevin L. Mayer, Peru) R. Nacional Espejo, Puyo on 5040 is on the air only sporadically as the owner is more

interested in political activities than in broadcasting. R. Pastaza and Voz de Oriente have merged and can be hrd on 1370 and 3315 at 1100-0400 with 2½ kW. R. Visión, Manta is on 650 and 6140 with 5 kW (Björn Fransson, Ecuador, SCDX 17/4) Ondas Cañaris has reactivated 5046, hrd to 0330*; Ondas Azuayas 4980 can be heard after Torbes closes 0400. The WRTVH address for it is wrong, confused with R. Reloj, Guenca (Jan Tunér, DX Juke Box 10/5) Since 23/4 R. Quito has been calling the Cadena del Triunfo, of which it is the key stn, "Cadena Ecuador Radio" instead (BEC MS 3/5)

EGYPT (Cf May LR-D-5) 29115, Voice of the Arabs, hrd 15/4 at 1544, when presumed fundamental 9705 was inaudible, sked 1500-1900 (Andy Sennitt, WDXC MM) So not Algeria as I thought (gh)

GUAM KTRW is in the clear J79 at *1100 Chinese on 11765 (Stu Klein, FL)

GUYANA (Cf May LN-4) GBS also says in QSL that 5950 uses vertical incident aerial arrays having a gain of apx 3 db (Nick Pappas, PA)

KOREA SOUTH R. Korea test xmsn previously on 6240 now on 6480, noted 14/4 with same long anmt by woman at 1931, off in mid-record 1933; not very strong, and spoiled by CW QRM (Sennitt, MM)

LAOS Houa Phan regional on new 6182, noted between 1300 and 1400 ex-6198 (Robert Yeo, Vic., R. Australia DX 22/4)

LESOTHO BBC WS J79 freq skeds show their new relay here on the air! but on FM only, 87776 kHz at 0400-2030, for Maseru area only. What's so important about having a local relay in Lesotho? I wish they'd put an FM relay on in Knoxville (gh)

LIBYA Unid Arabic stn hrd on 1610 12/4, 0333-0412, chanting, no mx, no IDs, some bad fades about every 10 minutes (Dave Valko, PA) Libya measured on 1611.0, hrd occasionally in the 0350-0420 f/out period in mid and late April, fully // 6206 (not 6205 and not 6210!) and some nights neither is hrd (Bob Foxworth, NY) Mebo II hrd several times during April at SWNS HQ on 1611 before 0400. This xmtr serves as a good pilot stn for high band BCB TX openings. Meanwhile // 6205A noted with Islamic chanting before 0300 (C. M. Stanbury, SWNS)

MONGOLIA Have been hearing RUB at 1715 EG, and 1945-2015 FR on 8892, which may be unintended radiation of the first or an intermediate stage of the 17785 xmtr (Paul Karagianis, England, SCDX 1/5) 8892 is one half of 17785, WRTN lists 8892, describing it as a 'possible overtone' from the 16m fq. Since there is no such thing as a 'half harmonic', Paul's explanation makes more sense (George Wood, SCDX Ed.) But I have seen copies of RUB's schedule actually listing 8892, tho maybe not currently (gh)

MOROCCO Rabat hrd on 19080, DS in AR, 1915 14/4 // 15160; 2 x 9540, just audible but unreadable thru QRM. 19080 was quite good (Andy Sennitt, World DX Club mid-monther April)

NETHERLANDS (Cf Apr LN-9) Per Madagascar data sheet, relay there uses the same audio process as to Bonaire, "MOTT"---modulation over two telephone lines, with the INTELSAT satellite. The upper audio frequencies are electronically lowered and remixed the same way it is done at Bonaire (Dean Fick, OH) Despite a claim by Ian McFarland on RCI DX Digest 13/5, quoting RN's rep in Canada that Bonaire is fed by satellite, not cable, the J79 R Nederland EG pgm guide reconfirms in an article that the "Columbus" sub-marine cable is indeed used to Bonaire. It is easy to check this yourself in the 2030 xmsn, as the audio on Bonaire fqs 21610 and 17810 is a word or so ahead of // Madagascar 11740 & 11730---more of a difference than the greater distance here from Madagascar than Bonaire would explain. But the additional 80,000 km out to synchronous orbit and back would nicely explain a delay of about 1/4 second. However, on 17/5 at 0730, Bonaire had lost the cable feed and had to play fill music; at 2330 18/5 on 6020 they appeared to be using an HF feeder instead (gh)

NICARAGUA R. Nicaragua hrd in SP 0800-0835 on 6116, SINPO 43333 (John Rossi, Ocean Springs MS) I don't know of any such stn, but there is a Nic listed on 6120; Colombia? (gh)

PARAGUAY returned to GMT -4 on 1/4, a month later than in previous years, due to a govt decree. The only stns currently active on SW are 5995 La Voz de Amambay, 6015 Emisora Paraguay, 6025 R. Nacional, 6110 R. Charitas. R. Nacional's 9735 xmtr is awaiting new tubes from USA (Tony Jones, Paraguay)

PERU You'll be lucky if you hit R. Sicuani. It has been moving up and down the band like mad these days. I once hrd it on 4965. R. Jaen seems to have had tech problems, with their signal popping on and off (Kevin L. Meyer, Peru) R. Qollasuyo, Juliaca, hrd 6/5 0407-0429 on 3250---fair sig, tho bedevilled by high QRN levels. Mx ranging from US soul to soulful SP ballads---nothing sounded typically Andean. Lots of ads, mostly prerecorded. Definite ID at 0424; someone threw the switch in midword 0429 (Richard M. Utter, NY)

SA'UDI ARABIA Riyadh hrd on 6955 14/4 with HS in SSB // 15060, excellent till swamped by Peking 2000, but SSB still readable w/Peking carrier (Andy Sennitt, WDXC MM)

SPAIN REE J79 sked shows trend to higher freqs, and no operations at all on 49m! (Bob Padula, Victoria) (Cf May LN-1) I recall that 9360 was used by RNE in EG in 1957-58, 2020-2100, beginning with an intro in the Irish lang, perhaps the only recorded use of Irish in international BCing, from outside Ireland. It was one of my favorite stns (Richard E. Wood, MO) Very interesting, but in current checks at 0515, I find nothing on 9360 (gh) REE has a mail drop for SP-speaking residents of NAM, CAM and Caribbean---Apt. 7-889, México 7, DF. (Miguel R. Naranjo Saroza, Sancti Spiritus, Cuba, 31/3) Convenient, domestic postage, EG OK? (gh)

TAIWAN Central News Agency reported from Taipei 10/4 that AFNT stn would continue to operate after 15/4 as "Taipei International Community Radio". US gave AFNT equipment to the govt. American Chamber of Commerce in Taiwan would be in charge of day-to-day operations (BBC MS 19/4) Presumably MW only; for the record, as AFNT was once on SW (gh)

UGANDA A more-or-less chronological summary of the radio-related aspects of the fall of Amin: Radio Uganda has a reputation for outright fabrication (John Darnton, NY Times, 13/3) On 24/3 the UBC Nam svc announced that any citizen found collaborating with the enemy would be treated as a traitor. Citizens were asked to refrain from using any electricity. Entebbe airport and airspace closed, dusk to dawn curfew. 29/3 UBC said anyone violating Ugandan airspace would be shot down without warning. Mostly music, but on a few isolated days, regular pgms saying the army would 'fight to the last man' (Joe Tangredi, REVIEW OF INTERNATIONAL BROADCASTING) From somewhere in hiding, Amin managed to interrupt an R. Uganda external service with an assertion that he was still in command. The tape, relayed from a mobile xmttr that linked up with a broadcasting tower in Soroti in NE Uganda, was repeated several times (undated, unID press clipping) R. Uganda came on the air a quarter hour late this morning, broadcasting intermittently, only music. Incongruously, the music included "Mack the Knife", "Mrs. Robinson" and old favorites by Tennessee Ernie Ford (Jonathan C. Randal, Wash. Post, 10/4) Instead of usual martial music, and news they played music from "Oklahoma!" and "West Side Story" as well as Glenn Miller's "In the Mood," etc. (Carey Winfrey, NY Times, 10/4) The next morning Amin in his red sports car--flanked by a half dozen carloads of bodyguards--was seen coming from the direction of Tororo in eastern Uganda. "My guess is he'd been up in Soroti, where he organized to make radio broadcasts," a diplomatic source said. Since then Amin has made several broadcasts claiming he was in the Kampala studio. Radio employes, however, deny that he has been there. Various sources speculate he has been using the Soroti station or the mobile transmitters fitted into several of his cars. (unID undated press clip) Since anmt 1259 11/4 that "Amin is no longer in power" Kampala DS on 5976 has IDed as Radio Uganda, rather than UBC. Currently on air 0300-1930, EG nx 0400 and other times. On 9/4 lis teners were urged to avoid listening 'to imperialist foreign radios who broadcast baseless and distorted info to cause confusion and unrest amongst the peaceful and progressive peoples of Uganda.' The ES xmttr at Soroti, some 190 km NNE of Kampala, carried intermittent mx on 6030 10 to 12/4, not // 4976. Evening of 11/4 it broadcast an Amin speech. Suddenly left the air 12/4 1800 after ID at 1736 as "External service of Radio Station Kampala". Mx was hrd from a second Soroti xmttr on 9515 1615-1700 12/4. No xmsns observed from Soroti since 1800 12/4 (BBC MS 19/4) At 1420 8/5 light mx on 6030 was interrupted as the announcer stated they were happy to inform listeners that they were now liberated, and thanked Presidents of Tanzania and Uganda and the Liberation Front Army for the wonderful job they had done. Then light mx continued as they were unable to get connections with the Kampala studios (BBC MS 10/5) Per Reuter, Soroti did not fall to anti-Amin forces until about 27/4 (SWNS) VOA announced that Tanzanian troops reached Soroti 7/5, so it may not be long before we hear the external service of UBC again (Steve Webster, CMS) Any govt that would put up the money to resume R. Uganda ES would be an inconsiderate one. I hope we won't hear Uganda loud and clear in America for many years (Bruce Boomer, WV, RIB) As 15325-watchers noted, R Moscow quickly occupied the frequency. Thx to Bob Foxworth for the press clippings cited above (gh)

U S A WFT613, Traffic Information Radio at Greater Cincinnati Int'l Airport hrd for last month or two on 1610 kHz, ID is given by WCKY news guy, then female anc'r w/message lasting a minute or two; audio clarity varies, best after 0400 (Bill Coleman, Rocky Mount NC, 7/5) Another 1610 kHz outlet is KNB824, it sounds like, IL Dept. of Hiways Advisory Radio, with two xmttrs in parallel, one at each end of repair zone on Edens Expressway 12 mi from River-side IL. Signals fair, repeated woman's voice loop (Earl Higgins, Ka9DHA, 8/5)

U S S R R. Moscow's live coverage of the May Day parade was broadcast from Red Square in RS for domestic and overseas, and for the first time since 1969 in EG. RS relay lasted from 0650 to 0906, on 52 channels between 5.9 and 21.7 MHz. EG obs 0655-0730 on RMWS 27 SW fqs (BBC MS 3/5) In case you missed this, make a note for next May Day; and for the October Revolution parade in November (gh) RMWS undergoing heavy self-promotion, prizes of books, records, sets of postcards, offered to listeners who write in and tell about their favorite WS pgm; also "50th anniversary of RM" competition--when did you first hear RM? And why do you listen? Deadline 1/9 (Jay Novello, NY, 8/5) I tried Moscow's SSB xmsn on 7920 and mentioned it in a reception report. I have just hrd that it is used in a broadcast from the studio to a transmitter (Robert Fraser, Cohasset MA, 8/5) In which case it is not a broadcast, but point-to-point (gh) (Cf Apr LN-11) R. Moscow does not 'broadcast' on SSB like R. Sweden or SRI. All Moscow's SSB channels are feeders, registered as PTP with the ITU. So RM are correct in stating they do not broadcast in SSB (Gordon Darling, UK) Alma Ata hrd on 29800, 5 x 5960, weak but solid, 31/3 1400 local mx, IS and ID just like the good old days on 10530. Fundamental is never audible (Andy Sennitt, WDXC MM)

FUTURE PLANS BANGLADESH Per R. Bangladesh, an agreement was signed in Dacca 14/4 by the CE and a rep of a French firm for installation in Dacca of two 250-kW xmttrs and aerial systems (BBC MS 19/4) MW or SW? (gh)

DOMINICAN REPUBLIC (Cf Apr LN-11) RTVD will soon start a SW service on 9505 and 5970 at 2300-0200 mainly in SP with SP-EG DX pgm Wed /GMT Thu/ 0030-0130. There will be pennants, QSL cards and tourist booklets. IRCs required for airmail reply. We appreciate your comments and reports, and accept cassettes (Teo Veras, Dir., RTVD IS, Box 969, Sto. Domingo; 26/3)

Teo Veras has resigned his post as director of the RTVD IS. A source at the govt stn gave this info to this column, saying that for several days, Dr. Bruno Pimentel, director-general of the organization, has had Veras' resignation letter. According to reports, Teo resigned because Dr. Pimentel did not want to consider suggestions made with respect to the RTVD SW transmissions. It happens that RTVD SW put a 50 kW xmtr on the air, but on the same frequency is R. Moscow with 250 kW, which prevents our native station from being heard anywhere. R. Moscow is five times more powerful. Reports from the US indicate RTVD is very difficult to tune in, because of RM QRM. It was suggested that there was no point in operating on this frequency and that a new one should be sought. Since the management would not consider this, Teo resigned. This is the third important resignation during Pimentel's term. In none of these cases has he done anything to resolve the conflicts. The departure of Veras is an especially great loss, because this announcer has a lot of experience in producing international pgms at another station. Teo keeps informed on international radio, and maintains very important international contacts (Arte Nacional column by Joseph Cáceres in Sto. Domingo paper 8/5, via J. R. Cabrera) I'm afraid this is partly my fault, as I had been pushing for a frequency change; however, Moscow currently seems to be gone, and RTVD is being received well enough during its tests. I hope Teo will return and go ahead on 9505. The QRM problem was blown all out of proportion (gh)

GABON France-Inter reported that RFI ES was discussed at a 2/5 Council of Ministers meeting. In order to improve reception in Africa, it was hoped to make use of xmtrs in Moyabi when agreement with the Gabonese govt had been reached. The Deputy Dir. said the Af svc was at present poorly received in the early morning and late evening since RFI has xmtrs in France only, while other important broadcasters had relay stns. At one time, France operated a relay in Brazzaville, but it was nationalized /in 1972/. A relay in Gabon would be a big step forward. Per AFP 8/5, the Gabonese President has said RFI would rent Moyabi IB Centre at certain times (BBC MS 10/5)

FRANCE More to above--the Deputy Dir said improvements could be made by broadcasting during the evening to NAM or by producing pgms especially designed for NAM listeners, not just France-Inter relays. It was also hoped the C&EEu svc could start earlier than 0500, when Muscovites are already at work. There should also be more pgms produced specifically for African listeners (BBC MS 10/5)

LIBERIA It would seem that AWR publicity about establishing a stn in Liberia is premature. There is no news here about any new radio stations. Only a few weeks ago, the govt said they had given no permission for a new stn. Whatever they have in mind, they are going it alone, as they have no contact with ELWA (Bart Bliss, ELWA Dir., via Jim Conrad, IA)

NAMIBIA Per R. RSA 27/4, the Administrator-General of SWA has proclaimed the establishment of the SWA Broadcasting Corp, to be all-commercial, and a SW xmtr to be constructed near Windhoek to serve areas not covered by present VHF/FM net, initially relaying certain SABC pgms, but increasing production of local pgms (BBC MS 3/5) Chairman of SWA radio board said 1/5 that negotiations for building a SW xmtr were well-advanced (BBC MS 10/5)

PANAMA The SW outlet for HOXO has been shelved for the present. If we do go on it will be in one of the tropical bands, I suppose (Bob Hall, P.D., HOXO, La Voz del Istmo, via James Smallwood, 7/5)

U S A VOA intends to go ahead with closure of Dixon and Bethany, despite some opposition. Closures are necessary to finance new permanent satellite pgm feeds for all relays except Colombo. It is proposed to discontinue Dixon from 2 Sept 1979, probably at 0700* AFRTS s/off. From 1100 3/9, AFRTS to FE will be carried by Delano DL-4 and 5, 100 kW Problems for VOA Au svc, as DL does not have any 247° antennas, tho a new 302° wideband curtain has recently been erected which can be slewed plus or minus 30°, so VOA may try it out for Au on 272°, centered on PNG. Also probably increased usage of Philippines for Au. Bethany closure is planned for Sept. 1980. The 50 kW ISB xmtrs at both sites (DX-9 & 10, BY-9 & 10) will be moved to Greenville which will continue using ISB feeds as a backup to the satellites, but the AM xmtrs at Dixon & Bethany will remain in mothballs and will not be moved to other sites (Robert Jones, May ADXN)

U S S R (Cf May LN-7) R. Moscow announced 14/4 that it would retain 1900-2000 time for GB&I service for time being. Retiming would be reconsidered for next winter sked (BBC MS 19/4)

VENEZUELA Per a note from R. Nacional, "Our new 1000 kW xmtr is not yet installed and I doubt it will be functioning before the end of the year" (SWNS May) So the report of their being on 880 kHz must be erroneous (gh)

CLANDESTINE CRANNY Eight-One (cf May LN-10) "Ba Yi" hrd since 9/3 on 12120 at 1230-1700. Probably controlled by the Vietnamese govt (Shigenori Aoki, Nagoya, Japan, SCDX 24/4) Obs since 11/4 on 12120. On 12/4, 1240-1447 it relayed a number of 5-min xmsns in Std. Chinese; breaks were as short as one minute. 13/4, xmsns 1300-1539 were 9 mins long, consisting of two 4-min talks separated by a minute's silent carrier. All xmsns appeared identical. Each pgm attacked policies of Chinese Vice-Premier Deng Xiaoping and ended with this anmt: "The foregoing is a broadcast of the 1st August Radio Station" (Std. Ch: Yi shang shi ba yi dian tai de guang bo) (BBC MS 19/4) Recent xmsns 14 mins long, at various times 1200-1600; not obs 21 & 22/4. Tho ancrs have accents close to those of native Chinese, possibly from the NE, items tended to be poorly-worded,

possibly indicating that they are written by non-Chinese. Technical obs indicate the xmtr could be located beyond the borders of NE China (BBC MS 26/4) Last obs 23/4 (BBC MS 3/5)

Voice of Democratic Kampuchea, pro-Pol Pot regime, believed to be in China, first obs 16/1/79 operates in Cambodian as follows for 55 min each: 0400 17705 11725. 0900 15600 11980. 1200 11990 11660 11600. 2330 11685 9470 (BBC MS 5/79) 11660 is an unannounced freq, and also hrd at 2330 (Shigenori Aoki, 27/4, DX Front Line)

Voice of Burmese People still following monthly sked change pattern last reported on 6304. On 5111, daily at 0030-0130-unconfirmed, and 1200-1300 in Burmese on Su/Tu/Th/Fr, in Jingpaw --also known as Kachin--on Mon, Shan Wed (these two langs unconfirmed) and in Std. Chinese on Sat (Isao Ugusa, DX Front Line 3/5)

Voice of the Namibian People's source of support for 7180 kHz broadcasts continues the subject of speculation. The prime candidate is the breakaway group SWAPO Democrats, a.k.a. SWAPO-D, a leader of which is Andreas Chipanga, recently released from detention in Tanzania (for disagreeing with the official SWAPO line?) (John Campbell, Apr DSWCI SW News)

Zimbabwe People's Revolutionary Voice (ZPRV) via reactivated R. Zambia ES 7250, hrd 16/4 0628 opening with recording of machine-gun fire, pgm prepared by the Publicity & Info Bureau of the Patriotic Front of Zimbabwe, with nx in EG, Ndebele and Shona. At closing 0730 referred listeners to next ZPRV pgm at 'half past six' (local) via R. Nacional de Angola, which however continues to be broadcast at 1700-1730 (BBC MS 19/4) Continues at 0615-0730, however inaudible at times due to QRM; 22/4, interfering stn was dominant and announced as "the General Service of R. Zambia broadcasting from Lusaka". However, QRM is similar to that currently degrading the Voice of Zimbabwe pgm relayed by R. Mozambique at 1800 on 4855 & 3265 (BBC MS 26/4)

R. Sandino hrd w/excellent sig 29/4 on 7587. At tune-in, ID w/tape of A-37 machine gun. Gave sked 1730 & 2300 Nicaraguan time, "la voz de todos los nicaraguenses derechos" (Earl Higgins, IL) Hrd 1/5 0446 on 7586, SIO 333; spirited remarks against Somoza; bits and pieces of Latin mx along with singing by a chorus featuring revolutionary type mx. Many IDs and parts of Schubert's "Marche Militaire" several times; suddenly off at 0504 (Bob Donly, SC, SPEEDXGRAM) Noted at 0400-0500 on 7600 (Jan Tunér, DXJB 10/5) Rounded-off freq? (gh) I heard them 7/5 announcing that in the next few days they would use a new freq in the 49m band! (José Rhadamés Cabrera, Sto Domingo, Dominican Rep.) Also said they had decided to increase power (BBC MS)

Numbers On 16/4 to 0050* on 7444, "KPO2" repeated over and over amid QRM 4/5 on 4670 *0400, "649" repeated thrice in SP, then count 1 2 3 4 5 6 7 8 9 0, local quality sig to 0408 tune out, in 4-digit groups at 0417 (Jay Novello, NY)

"JONT-FM" was a 20-watt FM pirate in Nishi-Tokyo on 81.25 MHz, midway between two legit Tokyo stns, covering a 30-40 km radius; run by two college students; quite popular with jr & sr hi school students; operated for 3 months and received about 600 letters and cards from listeners Hachioji City police busted them Tuesday. Punishment is a maximum fine of ¥50,000 or a max prison sentence of one year (Asahi, 12/4, via Bill Yohana, NJ)

R. Tic-Tac (?) New French pirate hrd Sun 22/4 0800-1000 on 6282, also anc'd special FM outlet for Paris region (Thomas Drescher, GFR, RVDXW 30/4)

Diamond Radio, the Voice of Rosck, new stn first hrd 22/4 1030 60 watts on 6278, nom 6277. Gave an address in Holland (Oscar Hansson, RVDXW)

R. Oxygene International is a new Swedish stn, 22/4, 1000-1045 on 6231, mainly disco-soul, 100 W (Oscar Hansson, RVDXW)

R. Galaxy, new pirate on "41m, 6940" hrd on 6939 19/4 0445-0515 with rock mx, claiming 1000 watts; also 8/5 0025-0104* with British accent claiming to be in (New?) Mexico. Said would be back on Saturday but wasn't. At first, USB, then more like RCSSB. May have mentioned Reynosa or similar-sounding city; another time claimed 850 watts on an RCA xmtr (Walcutt, TX)

"WOOF", Hoople, ND (after P.D.Q. Bach) hand-drawn stuffer to unsolicited First Day Cover says 50 watts, 7425 kHz, Sats at 0600 GMT, relayed via Fernwood OH (gh)

"KVHF" on 6430a, hrd 0223-0700 12/5 with rock songs, oldies, C&W, IDs "You're listening to KVHF, for a festival of hits" and "You're listening to KVHF broadcasting(?) to (or from?) South America" Otherwise very little talk (Terry Concannon, Whittier CA)

Clear Channel 85 hrd on 3813a, probably hams, faking xmsns, "We are broadcasting from the cave' whoops! the stalagmites (sic) are starting to drop" "This is the WDO-W3WDO Clear Channel 85!" mentioned "BMI". They also told of old pirates. No records but many sound effects and one belch (Dave Hascall, Fortville IN) Checked 3850-3900 area 14/4 at 0300 and came across some rock mx on 3885-6. Ancr came on after song and said was going for more records, then turned off xmtr like a ham would after a QSO. Half an hour later, a couple of hams were on, one pretty foul-mouthed, with same signal strength as before. This was an AM ham net freq amidst a pile of SSB 'slop buckets'. Maybe they're responsible for pirate activity (Brett Saylor, Altoona PA)

Voice of Venus Recheck May LR-C-1 for test dates and times (gh) VOV will be on the loop every Sunday night 0600-0615, 212-283-9979. They had said they were going to quit broadcasting until June, but changed mind and were back on. Last pgm better organized (F. Schumacher)

"CFAB", Fruitland ON, 1620, QSLed on 3 x 5 index card. Said mine was the only report sent to him before the feds warned him to stop transmitting. V/s John Reid. Card came from 1363 Logan Ave in Winnipeg. Doug Miske says this is an empty building with a mailbox (Greg Wilson, May DX Ontario)

"WIZN", 1620 kHz on Long Island, hrd 8/2 0125-0200, Don Kirby & Scott the Watt are DJ, Top 40 mx, no phone, bad audio, talked about WFAT and WSCS. I only got them once (Stephen D Ehrbar, Nesconset NY, IRCA DX Monitor 5/5)

"WFAT" Yes, 15/4 at 4:40 AM we heard those fatal knocks on the door. Larry McRae and I, Hal Hall, decided that since two months ago we spotted the FCC cars parked outside the FAT studio just as we were about to go on the air and as we learned later, in one of those cars was Wayne McGee, an FCC agent, waiting for us to go on the air so he could bust us. We went off the air for about two months. So on Friday April 13, Larry and I and Frank Footer decided to go on the air for a "Good-bye for now Show". About 15 minutes after we started taking calls, Larry and I both heard noises outside the FAT studios. Larry immediately handed the phone to me and looked out the window. What he saw was a light blue station wagon with two men taking equipment out of the back. We said our last good-byes and shut down and dismantled the station. Three minutes later, was the knock on the door. Two agents came in and took some information and left. That was just 15 hours ago. We still have the mailing address open if you would like to write for info or anything else--WFAT, 1637-77 St., Brooklyn NY 11214. We will be setting up phone lines for you to call up and talk to us too. WFAT was on 1628 kHz, with 60-100 watts to an end-fed Zeppelin, horizontal at 120 feet. First sked broadcast 11:30 pm 31/12/77 to 6 am 1/1/78. Last sked broadcast, 15/4/79 2:45 pm-4:40 am. Staff: Larry McRae, Pres & GM; Hal Hall VP, Air Personality; Fat Frank Footer, PD, AP and Alcoholic (sic) (via Charley Hoffman, PA) Listened to their "Farewell for Now" show. They seemed to be worried about adverse publicity of pirates in the NY Times, and the strain on their health keeping those late hours (not to mention on mine listening to them!). Really professional-sounding outfit, including singing IDs. Still maintaining that the area needs this kind of radio, asking if communicating was a crime (Brett Saylor, Altoona PA) "Larry McRae" is Perry Cavalieri (misspelled in May LN), and "Hal Hall" is John Calabro, both of whom formerly ran "WCPR". Cavalieri said FAT is dead for him, but Calabro notes that he himself has never been warned. The FCC's current crackdown on pirates has been very effective, according to one addict listener who knows where to comb the AM and FM dials. This fan has logged two dozen pirates in recent years in the New York area, only to hear them disappear one by one. WFAT was the best lately, and the listening now is very thin, according to his log (Francis X. Clines, from a much longer illustrated article on WFAT in the 21/4 NY Times, qv, via Jay Novello, Bill Yohana, Malcolm Kaufman and Ronnie B. O'Connell)

/0050 on 11780 6090 (Asoc DX del Litoral)

DX PROGRAMS ARGENTINA R. Belgrano has a "DX por DX" program Mon at 0100 (Nicolás Eramo and Mario Jorge Safier, R. Nederland Espacio DX-ista 19/5)

BELGIUM DX Corner Belgium noted 22/4 on 15190 at 2245-2300; said they'd be back in two weeks and had remembrances by Gerry Arrington (Jay Novello, NY) Apparently unpublicized additional airtime to 1635 and Mon 0040; and on first & thirds the Spanish version is on at 2245 (gh)

BULGARIA R. Sofia's SP DX pgm is on first Wed at 2245 on 11765 15310; 2350 15385 11870, Thu 0200 15385 11870 (Litoral)

CANADA In June there may be some changes to the RCI DX Digest scheduling of various editions --listen for anmts (gh) Arlene Luskin is to have a spot on the program (R. Moscow DX 29/4) As of Sat 19/5, CBC NS will air a new SWL pgm, "Shortwave Receiver" co-hosted by Dennis Finley and Ian McFarland, focusing on SWL basics, at 1830 on 9625 & 11720 (Harold Sellers, CMS) No there wasn't, when I checked some French program instead (gh) "ODXA Newslines" is back on the CB air in the Toronto area on 27145 LSB; GMT Sats 2300, Suns 0230, Weds 2300, Thurs 0230 (DX Ontario)

CZECHOSLOVAKIA R. Praga DX pgm in SP is Sun at 2315 on 11990 & 5930, first week of month, and GMT Mon 0215 on same (Asociación DX del Litoral, Apr-May)

ECUADOR I will have a new feature on DX Party Line, third Mon of each month, all about MW DX. I hope to include special features, rx reviews, etc. All correspondence is very welcome; I will answer all questions, MW DX tips, latest QSLs, etc (Earl Higgins, 286 Lawton Rd, Riverside IL 60546)

GERMANY EAST RBI anc'd that as from April their DX pgm will be weekly, every Monday, not fortnightly as before (Miki Vcelar, RSA, CMS Telegram) I was listening to a Monday (GMT Tue) broadcast 15/5 and didn't hear it (gh)

GERMANY WEST DW DX pgm in Spanish is on the third Sun of month at 2340 on 15105 11785 11810 11865 9545 9610 6075 6100 and GMT Mon 0330 11785 11865 9545 9640 6075 6130 (Litoral)

NETHERLANDS Per several anmts on DX Juke Box, they are looking for someone to do a regular DX report from Africa like the other regional reports. Those applying should send an audition tape. Also, on the Portuguese "Rádio-Atividade" Thu 2245-2300 on 15320 15180, Roberto Levenstein is now contributing a regular (weekly?) DX report from Madrid (gh)

PORTUGAL R. Portugal Spanish DX pgm is GMT Sat 0110 on 11840 9620 (Litoral)

ROMANIA R. Bucarest SP DX pgm Sat 2230 on 15255 11940 9570; Sun 0030 on 15255 11940 11840

9690 9570 9510 5990; and 0330 on 15255 11940 11840 9690 9570 6155 5990 (Litoral Apr-May)

SRI LANKA Next RCI QSL for their broadcasts from SLBC Colombo will be made available for their Sun 1/7 pgm on Radio Monitors International at 1100 & 1400 GMT. Normally, RCI issues only one do-it-yourself QSL card per year, but since the RCI broadcasts from Sri Lanka have been in progress for only a few months, another QSL card will be available in conjunction with the July pgm. From 1980 onwards it is expected that only one QSL per year will be available. All reports for this should be sent to RMI at Box 15, Poona, India. A number of other contributing segments to RMI are also issuing their own QSL cards. The 1979 DX contest conducted by RMI will be held on Sun 1/7, "Spot the Mistake". Listeners will have to identify 20 deliberate mistakes in the pgm. There will be prizes and a special QSL (A. Peterson, AWR). The 17/6 program will include an interview with IDXC's youngest member, S. Santani (IDXC)

SWITZERLAND RSI's French "Rubrique DX" with Marianne Küchler is included in the listeners' mailbag and record request show, on the 4th Sunday i.e. at 1415, following GMT Mon 0315 0600 to NAM on same freqs as EG, and when there is one, on the 5th Sunday (RSI J79 sked)

U S S R R. Moscow's DX pgm is now included in "Hobbyland" including stamps, etc., at about the same times as before. Tnx to Cuba relay, easy to hear Sats 1540, 1840, 2140 on 11840(gh)

PROGRAM NEWS

CANADA After nearly five years of hosting and producing his own weekly pgm (Sats 1405-1530 on CBC NS), Danny Finkleman has decided to go on to new challenges. His CBC Radio show ends 30/6, to be replaced by 'the best of Danny' until the end of August. The show includes his choice of music, comedy and games and human-interest interviews. Among the eccentrics introduced on his show was Vatican gossip columnist Father Guido Sarducci, better known now on NBC-TV Saturday Night Live.

Among CBC Radio highlights for the first fortnight in June, most of which are carried at these or other times on NS (times here are local, not GMT). Sun June 3 3:05 pm "Identities" on Arabian Canadians. Sundays 8:30 pm "My Music" from BBC. Sun June 3 9:05 pm "Celebration" on various kinds of religious chant, including Tibetan, Buddhist; Suns 11:05pm-Mons 1 a.m., "Great Canadian Gold Rush" rock show at newish time. Mons 8:04 pm "Conquest" a game show on conquering countries. Mon-Fri both weeks at 10:20 p.m., "Booktime" reads "The Picture of Dorian Gray" by Oscar Wilde. Tue June 5 8:04 pm CBC Playhouse begins a new mystery thriller series, "The Dixie Diamond Detectives" by Larry Fineberg. Tue June 5 8:30 pm "Touch the Earth" music and legends of the Inuit people. Fridays 2:04 pm "Mariner's Compass", interviews in Halifax with men of the sea (gh, from CBC Program Guide)

COSTA RICA R. Relej's "Aquí Costa Rica" mailbag pgm in Spanish and some English is now on the air Suns at 0600 GMT, Tues 0200 on 6006 and 4832 (Roberto E. Aragón, TI2REX, 79-05-07 via Ralf F. Munster, GA)

FINLAND R. Finland June highlights include "This Finland" on Thu-Fri, on gambling June 7-8, cycling 14-15, midsummer 21-22, holidays 28-29. Fortnightly "Out & About" Sats 1940, 2140, 2340 and Suns 0940 & 1440, June 16-17 visits Rovaniemi, the capital of Lapland; June 30-July 1 Ainola, the home of Jean Sibelius. "Sunday Best" June 10 includes comedy and satire at 1350 on "Land of 1000 Recipes", and on June 24, "Land of 1000 Sports". (FIR)

HUNGARY R. Budapest "Backgrounds" June 10-11, Sun 1030 & 2100, Mon 0300, 1030, 1430, is an in-depth report from the EDXC meeting in Vienna; same times two weeks later, "Floor is Yours" is a panel discussion on the impact of film. Summer re-runs of 'the best' are on "Popularity Playbacks" Weds 2100, Thurs 0200, 0300, 1030, 1200, 1430 during June. Thu June 7 2100 and Fri June 8 0200, 0300, 1030, 1200, 1430 "The Festival Holiday", results of R. Budapest's competition (Budapest International)

ISRAEL Traditional music over Israel Radio: Fridays: 0410 & 0440 "Music for the Sabbath" (Sun-Thu at these times, varied Israeli songs) on 11620 15585 17630; Fri 1805 "Religious Song for the Sabbath" on 17630; 2105 "Ladino Folk & Love Songs" on 11645, 17585, 17630; 2130 "Yiddish Folk Songs" on same. Tuesdays 1905 "Cantorial Music" on 17585 17630. Tuesdays at 2010 & 2240 in EG pgm, "Israel Pop Sound" on 17645, etc. (Amnon Nadav, NY, via IBA Cheltenham PA)

NORWAY In its usual vague manner, R. Norway promises these topics to be covered in its weekly EG BCs on Suns this summer--questions connected with the establishment of National Parks in Norway; reports from the voyage of the Christian Radich, a sail training ship, across the Atlantic; Norway's attitude to current international conflicts and Norway's role on a global basis; and the ideas and institutions shaping Norwegian foreign policy; how Ibsen came to the English-speaking stage (gh, from NRK guide)

XIZANG (That caught your eye, didn't it?) At 2315-2325 all Lhasa outlets have radio gymnastics, but those on 4786, apparently a 2nd pgm, are not the same as those on 4035, 5240, 9490. At midnight 4786 has own news in Chinese, as usual introduced by instrumental version of "The East is Red". Another version with chimes is used at the 2230 opening (P. Karagianis, Sonning Common, England, SCDX 24/4)

PUBLICATIONS

Communications Corner is a new monthly column by Herb Friedman in Radio-Electronics from May, including CB, ham, SWL (Rufus Jordan PA)

Handy Guide to Your Rig's Controls by Thomas F. McMullen, in May Ham Radio Horizons. pp 48-54 is highly informative on band-pass, attenuator, gain, LSB/USB/CW, pre-selector, VFO etc. With related schematics and graphs (Rufus Jordan, PA)

BME's World Broadcast News, Mar/Apr 79 includes general articles by Daniel A. Robinson, "SWBC Mirrors Worldwide Social & Political Changes", and by Jonathan Marks, "International SW Radio - New Ears for Old Voices", among others (via Pieter Martins, R. RSA.)

DX Front Line is the new name for New Far Eastern DX Review. There appears to be no change in Isao Ugusa's excellent approach and content on Asian broadcasting developments. Sample copy for limited period until 30/6 is 3 IRCs; also includes list of article reprints. Send to Isao Ugusa, 1-3-10 Mikage-yamate, Higashinada, Kobe 658, Japan (gh)

D X i n g t h e L O W - P O W E R E D C A N A D I A N S

For the past five months or so I have been pursuing the Canadian local outlets on 49 meters. I finally logged the most recalcitrant of the lot about a month ago, and all have now verified except CHNX. For those who lack one or more of the seven sisters one or two tips might be helpful. My observations hold for the midwest (Kansas is about as mid as one can get), but should apply elsewhere to a greater or lesser extent. I treat the stations in what I found to be increasing order of difficulty.

CFRX Toronto, ONT, 6070 is easy late at night around 0800 GMT, give or take a couple of hours. Often audible other times as well. ID is CFRB with occasional CFRX ID's played in the middle of songs. News on the hour.

CHNX Halifax, NS, 6130, is in the clear from before 0500 (Deutsche Welle fadeout) until 0600, after which HCJB shares the channel but is often overridden. As the days shorten next autumn try 2300 (GBS s/off) to 2400 (VOA s/on). ID is CHNS, and format is top 40 pops with news on the hour.

CFCX Montreal, QUE, 6005, is not easy; good selectivity is important. ECSS-LSB gets rid of some of the splatter from R. Reloj on 6006. The frequency is used by European broadcasters during the evening, so reception is best well after 0600. CFCX beams 340/160 degrees (NNW/SSE) and is pretty well shadowed into parts of the midwest. Reloj occasionally goes off the air for an evening or two and then is the time! ID is CFCF; format is pop music with a late night phone-in show. News on the hour.

CKFX Vancouver, BC, 6080, is completely in the clear from 0730 (VOA s/off) until about 0930 daily. If you hear a weak signal with snatches of country music programming--that's it. Just relax and wait for the ID. Sooner or later, that night or some other, it will be audible. Their ten watts sounds like half a KW; they've often been S7 or 8 this spring. ID is CKWX, and there are always at least three ID's during the news, the first five minutes of each hour, one at the beginning and two at the end.

CFVP Calgary, ALTA, 6030, is tough. The only window is between 0700 (AFRTS s/off) and 0855 (R. Japan s/on). During this period it is covered by someones unmodulated carrier. Some nights CFVP overrides and can be logged with top 40 pops and news on the hour. Other nights they appear briefly when the interfering carrier fades, so the time to watch for them is when the S-meter takes a dip. ID is CFCN, oft repeated.

The two CBC outlets on 6160 present special problems, chief amongst which is Emisora Nueva Granada, the 10 KW Colombian which dominates the channel. When ENG is off the air, which it has been most of the winter and spring, try the following times:

CKZN ST. Johns, NFLD, 6160, is best at s/on, 0927 daily. It can often be heard earlier in the evening mixing with the Russian service from VOA Wooferton around 0300-0500, s/off. Full ID's at s/on and s/off with "CBC radio" common at other times. If the Colombian is off the air, CKZN is easy and should be ranked just after CHNX for accessibility. Otherwise, good luck.

CKZU Vancouver, BC, 6160, is a real bear. It should be in the clear from around 0700 (Algiers fade out) until 0900 s/off. But it isn't; it is covered by an unmodulated carrier (I suspect CKZN's but can't be sure). If the Colombian is off the air, CKZU can be expected to break through once or twice a month around s/off time. ID is generally "CBC radio" with full ID as CBU, etc. at s/off.

Both CBC outlets sign off with "O Canada" followed by "God Save the Queen". CKZN/CBN signs on with "O Canada" and the provincial hymn.

On April 24, 1979 reception conditions were such that I was able to log all seven stations in the one and a half hour period between 0800 and 0930 GMT. Now if CHNX will only verify.... (Robert L. Rankin, Lawrence KS)

Tropical DX News-letter I hear is kaput but no details known. No issues received for a couple of months (Foxworth)

From Spark to Satellite, new 256-page book by Stanley Leinwoll, published May 79 by Scribner; a history of radio comm. \$14.95 retail but DX clubs offered bulk discount (ANARC)

Asociación DX del Litoral is yet another Argentine DX bulletin; Apr-May was 28p in SP of interesting info. US\$5 for 3 issues or 20 IRC; C.C. 83, 2000 Rosario (gh)

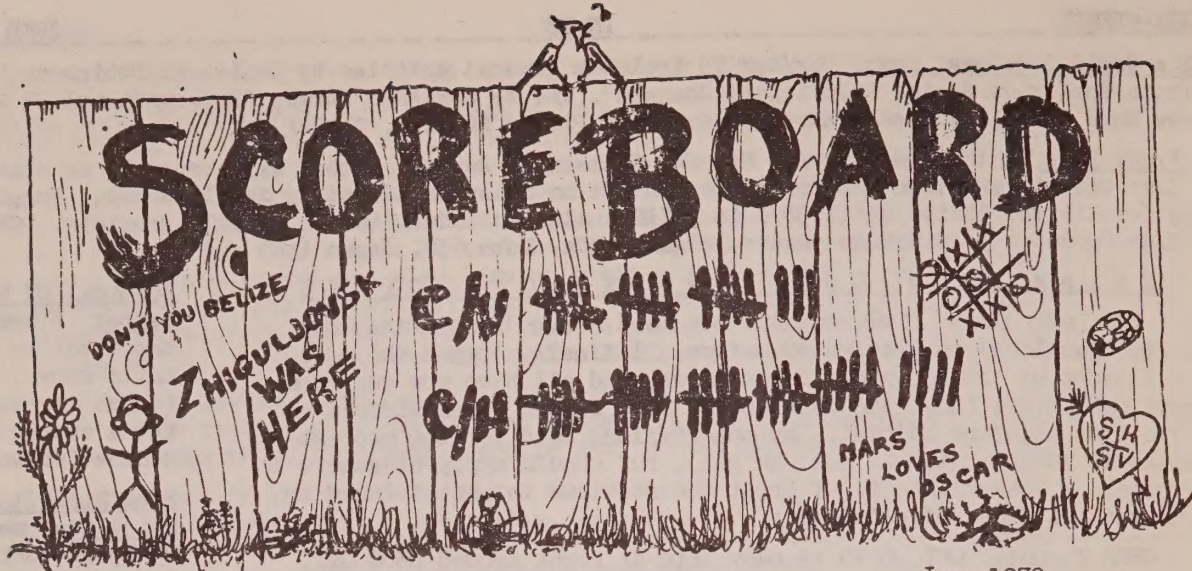

CBC Caps with exploding pizza emblem for sale in 3 styles: dark blue cotton with light foam lining for men with scrambled eggs, for women without; or dark blue cotton mesh. C\$7ppd (Ont add 7% tax) to CBC, Box 40, Stn W, Toronto, M6M 1Y9 (gh)

UNIDENTIFIED 4755 (Gf May LN-2) Hd here too, last time 22/4. (Mike Agner, Ma.) ID as FRC Nigeria hrd 2302 (Osterman, DX Digest 20/5)

4810 Russian stn *0145 tones, 0200 NA & RM IS. Site? (CMS Telegram 30/4)

6916 1300-1330* poor due to ute QRM, maybe Udom Sai, Laos, ex-6910? (Ugusa DXFL)

11965 1155-1200 R. Kahmgo? (Utter NY)

Are you missing from this months report? If you were on and are not included this month, it means that you haven't updated your totals in over a year. Drop me a line and I'll put you back on. If you've never been listed, all you need do is send me your totals of countries heard and verified, both worldwide and for the spotlight continent. Next deadline is August 15 and spotlight will be SOUTH AMERICA. Have a good summer, and start setting those goals for the 79-80 DX season.

Bob Meyer

HELPING HAND: For sale. Mizuho SX-59 Preselector/Preamplifier in excellent condition. Almost new. \$55 or best offer. Please write to Mr. Peter A. Kulinski, Church Road, RD 2, Doylestown, PA 18901.

HELPING HAND: For sale. Panasonic RF-4800 with all manuals and Telex phones. Less than one year old. \$320 firm plus shipping. Call James D. Skladany at 714-882-7634 after 2300 GMT.

QSLREPORT

NEAD XO
Sept. 9, 1979
BE THERE

I hope to meet
each and
every one of
you on
Sept. 9,
1979.

Sam Barto
245 Cherry Ave. J-11
Watertown, Conn.
USA 06795

I'm really excited about typing this particular QSL Column. Besides listing the "Bid" winners and the formal announcement of the New England Area DXers Outing we have several stations and countries that haven't been reported in years! I need all the space I can get, so enough of my idle verbiage and on to the QSLs!

wards the HAP Auction in Sept. Please send
them to me as soon as possible. Items could
include pennants, stickers, decals, books,
equipment and the like. Hope to see you
in Sept....Remember your donation is for
a very good cause - the Handicapped Aid
Program...Sam.

NEW ENGLAND AREA DXers OUTING: (small fanfare and drum roll please)

As you probably realize by now the 4th Annual New England Area DXers Outing will be held on Sunday Sept. 9th at Black Rock State Park in Watertown, Conn. Our first three outings attracted 32, 54 and 87 people respectively. This year we anticipate over 100 attendees!

The main theme of the outing is friendship. This year there will be games prizes and fun for the entire family. One of the major events is the HAP Auction. This year the auction will be shortened considerably. We will have more items (many more) but we will only offer the higher priced quality articles at the auction. The remainder of the items will be offered after the main auction at a side table. This will allow more time for socializing, DX talk, softball and other activities.

For more detailed information, directions, overnight accomodations, and the like, please send a SASE to your QSL Editor....This outing is the largest independently sponsored gathering of DXers in North America. I hope to meet and greet each and everyone of you on Sept. 9th.....73s Sam.

VERIFICATION TECHNIQUES: Revision

Your QSL Editor has @20 copies of the revised "VT" publication presently available. This publication was written and designed to inform the reader about the use of various methods and techniques used by DXers to obtain the harder to receive QSLs. I'm sure that many of our readers, especially those just joining NASWA, will find it very helpful and enjoyable reading. It is over 50 pages in lenght, single spaced and contains over a hundred illustrations. The publication is available from your QSL Editor for \$3.00.....Sam.

BONAIRE: TWR 11925 f/d folder "Studio" cd. in 16 ds. for 1 IRC.(Minor-AZ).

A very big thank you goes out to all of the wonderful people from NASWA who have sent me items for the HAP auction. They are truly appreciated....Sam.

MORE HAP AUCTION ITEMS:

We still have an ample supply of stickers and decals from KXEL, WHA, WDGY, CKNW, Radio Vatican, ORF and WMNI for a mere .25 cents each! They are extremely colorful and would make a fine addition to your DX den wall. The Radio Mexico pennants are still available for \$2.00 each and the Radio Vatican pennants for \$1.00 each. In addition to the above, the following decals and stickers are now being released for .25¢ each: KFBK, CKSA, CFMI, KNWC, KVIP, KWKH, CHSC, KKYX, new WDGY, and KPOF. We also have a new supply of pink and white ORU decals, the new Deutsche Welle blue and white decals, and some VOCM-NFLD stickers. These last three items are now available for .50¢ each. Finally we have the new logo pennant from Radio Nederland available at \$1.50 each....I sincerely hope that I have been offering something for everyone. Again, I want to thank all of our fine members who have been purchasing these items for HAP and to all of you who have been sending me items for the auction. Your assistance is greatly appreciated. Love you all.....Sam.

AUSTRIA ORF to NAM has moved from 6155 to 5945 at *0130. Both it and 9770 now very good. (Robert Fraser, MA)

BOLIVIA R. Padilla, 3478, in SP 0225-0242*; Muisca criolla, W DJ, s/off ID as Amables oyentes de R. Padilla . . . nos despidemos." No NA. (Jean-Jaques Bloch, MD 5-9)+++ R. Riberalta, 4696, regularly heard after 0330 w/ MoR mx, no folk mx really, w/ DJ in every once in a while for talks, TCs and rare IDs; heard to 0437* on 15 May. (Pitt McNeil, DC) +++ R. Em. Bolivia, 4755 noted w/ Colombia off at 0226; nice folksy tunes, SP DJ in w/ talks and ads. (McNeil, DC) +++ La Cruz del Sur, 4875, in SP/Indian, 1100-1120; M&W w/ talks, LA and easy listening mx, ID. (Neal Perdue, ALA 5-14)

BELGIUM (out of order) BRT, 15190, now covered by RCI 0015-0100, which has returned to this freq. BRT // of 11715 better. (Bob Zilmer, WI)

BRAZIL R. Tabajara, 4795, tentatively noted at 0820 in PT; heavy QRN but heard M anncr and PT pops. Tentative ID on half hour. (Stu Klein, FLA 5-13) +++ Rdf do Amazonas, 4806, in PT 0910; wild and wooly accordian mx similar to Louisiana "Cajun" (Acadian) mx, M anncr, and full ID. (Perdue, ALA 5-14) +++ R. Cultura, 5015, in PT 0850; M anncr, US C&W mx sung in SP or PT, LA easy listening mx, jingles, ads, "Cultura" ID and hourly pips at 0903. (Perdue, ALA 5-14) +++ R. Maua, 5055, in PT 0705-0730+; typical Brazilian wakeup pgm. Many IDs. (Perdue, ALA 5-17)

CANADA CKZU Vancouver, 6160, in EG 0615-0803*; noted under CKZN OC, while Em. Nueva Grenada was off air. Choral mx, CBC nx 0700, weather 0704, light classics. Full ID and both NAs at s/off. (Bob Rankin, KS)--- CKZU also noted 0730 w/ M DJ, EL mx, jazz, ID 0759, CBC plug, NA, and GSTQ 0800. Off an hour early because of DST. (Klein, FLA) +++ CKZN St. Johns, 6160, 17 May at 0826-45. Anthems, full ID, weather, nx. This one als audible earlier in the evening 0200-0400 w/ serious mx and CBC nx. (Rankin, KS)

CZECHOSLOVAKIA RP, 21605, in EG to Afr 1540; mailbag and anti-Rhodesia UN pgm. Not listed in WRTH. (Grenier, CAL)

CHILE R. Nac. de Chile, 6190, in SP 1101; ID, long list of stns in net, nx. (Jack Jones, MISS)

COLOMBIA LV del Norte, 4875, in SP 0948; ID, TCs, ads, LA pops. (Jones, MISS; 5-2) +++ Em. Meridiano 70, 4925, at 0335* in SP: ID included "desde Ararica la grande en los llanos orientales" and stated that s/on would be at 0400 local 0900 GMT. NA and off. (Bloch, MD)+++ R. Nacional, 9635, in SP/EG; lang lesson at 1145 t/in. Not on at 1140. S/on apparently 1140-1155v. Distorted audio. (Perdue, ALA 5-14)

COSTA RICA TIFC, 5055, in SP *0955+; church bells, organ mx and talk by M. (Perdue, ALA 5-14) +++ R. Casino, 5955a, in SP *0930; ID, call, MW and SW (5954) freqs, TCs, ranchera mx. Low pitch het w/ LV de los Centauros carrier at *0934. (Jones, MISS 5-2)+++ TIRN "Radio Noticias del Continente", 6132.5 in SP 0245-0330 17 May; testing w/ recorded annmt and SP mx. Text: "TIRN, R. Noticias del Continente, la voz de america-latina, en las bandas de 31 y 49 metros, emisiones de prueba desde San Jose, Costa Rica." Not there 18 May. 31m freq unknown. (Rankin, KS) *** If memory serves TIRN is call of old R. Nacional MW stn. tba

CUBA RM via Havana, 9600, in EG 0200; strongest stn on SW but constant hum and nearly constant crackling noises. (George Sherman, MINN)

ECUADOR R. Pastaza, 3315, in SP 0327-0404*; Sub-ID: "La Voz de la familia educacion." Criolla mx, ID 0401, NA 0403 and off. OC off 0406. (Bloch, MD 5-8)+++R. Rio Amazonas, 4870, at *1030; NA, rapid chatter by two men in presumed Quecha. It's been a long time since I 've heard this one s/on. They used to come on w/ plaintive flute melody. (Perdue, ALA 5-5) --- Rio Amazonas also noted at 0433*; request px, SP DJ, ID, prayer and off w/out NA. On late due to Mother's Day. (Bloch, MD 5-15) +++ Em. Gran Colombia, 4910, in SP 0545; fast LA mx, M anncr between selections w/ ID and TC. Bad het from UTE. (Klein, FLA 5-15) +++ Ondas Azuayas, 4980, in SP 0425-0502*; non-Andean latin mx, M anncr w/ ID, MW, SW, and FM freqs, then more mx. (Klein, FLA 5-10)---Ondas Azuayas also noted 0435-0504*; ID includes "desde Cuenca del Ecuador en America Latina, decana de la radiodifusion en todo el sur del pais." Played "Musica ecuatoriana." Good sigs and off w/ NA. (Bloch, MD 5-15)

FINLAND RF back on 11800 at 2330-0000 w/ EG to NAM // 15265. Both noted w/ good sigs. Yes, they still use R. Finland ID at times besides Finnish Int'l R. (Zilmer, WI)

GALAPAGOS IS. LV de Galapagos, 4810, in SP 0320-0524*; on late for requests from kids to their mothers. Same px anned as continuing at 0930 local (1530 GMT) Sunday morning. ID as "Sintonizan la emisora Radio LV del Galapagos desde Puerto Baquerizo Moreno, capital de la provincia de Galapagos." Off w/ prayer but no NA. (Bloch, MD 5-13)

GERMANY (DEM REP.) RBI, 9730, in EG 0100 to NAM; now much stronger. Must have increased power from reported 50 kW to 500 kW as listed here for years. (Sherman, MINN)

GRENADA R. Free Grenada, 15045, in EG 2200; talk on high blood pressure w/ examples of what happens if you don't take your medicine. (Klein, FLA 5-7) *** Does anyone know who won the Grenada Amateur Bodybuilding Contest advertised on RFG a short while ago??? tba

HUNGARY RB, 9833, in EG to Nam 0200 and 0300; high power here now that BBC has taken over their only formerly good freq of 11910. (Sherman, MN)

JAPAN RJ, 17825, is now covered by Bulgaria at 2345-0045 which moved in on this freq. // 15270 covered by splash from Finland and USSR on 15265 and BBC on 15270 at 0030. Bad freq management. (Zilmer, WI)

LEBANON RL, 15285, in EG to Nam 0230; nf, ex 15440; fair strength. QRM from Brazil 15290, also a new freq. (Sherman, MINN)

NETHERLANDS ANTILLES RN Bonaire-Hilversum link out 0745-0915 17 May. Noted on 9715 w/ very, very MoR mx by Metropole orchestra w/ annmcs of group name by M. Break 0825, annmcs of technical difficulty 0830 after IS. QRM from FEBEC 0830. Similar stuff on 9770 except annmcs in DT. Wonder if this pallid stuff is all they have in their library. (Joel Rubin, CAL)

NEW ZEALAND RNZ National Radio, 11945, in EG 0915; pgm called "Survival"--stories of men lost in the bush for weeks who survived. (Klein FLA 5-15) *** Isn't this an older BBC series? tba

PAKISTAN RP, 21755nf, in lang 1330; fair to good and // 17640 and 21485. (Zilmer, WI)

PAPUA NEW GUINEA R. New Ireland, 2428, in PD 1005; two M w/ presumed nx, TC for 8:10, and island mx. Then anned site and PNG. (Klein, FLA 5-15) +++ R. Madang, 3260, in PD 1045; M annr, C&W mx, occasional island mx, ID and nx. (Klein, FLA 5-9)---Madang also noted 1045-1110+ in PD; island mx, mention of Madang, '50s R&B (Fats Domino "Walking to New Orleans" . . . a long walk from there--hi). Good. (Perdue, ALA 5-5)+++ R. Sothorn Highlands, 3275, in PD 1110; island chants, M annr. (Perdue, ALA 5-5) +++R. North. Solomons, 3322, in PD 1052; M annr, many mentions of PNG, local mx. (Klein, FLA 5-15)---RNS also noted 1135-45 fade out in PD; island mx of a wilder variety than usually heard on PNG stns; plenty of drums. Almost Afr sounding. W annr. (Perdue, ALA 5-6) +++R. E. Sepik, 3335, in PD 1040; island mx on hollow drums and pipes. M annr. (Klein, FLA 5-9) ---RES noted 1115 w/ PD talks by M. (Perdue, ALA 5-5) +++ R. Milne Bay, 3360, in EG 1035; M annr w/ local nx and talk. Many mentions of PNG, several IDs. (Klein FLA 5-9)---RMB noted 1110+ in EG and PD w/ Sunday religious px in EG, address and TC. Into lang 1113; then island mx. (Perdue, ALA 5-6) +++ R. E. New Britain, 3385, in EG 1045; island mx, M annr w/ public service ads, mentioned New Britan Comm. [sic] school. (Klein, 5-15) --- RENB noted 1120 very strong w/ island mx 5-5 and 5-6. (Perdue ALA) +++ R. Manus, 3905, in PD 1117-1130+; W annr, C&W and US pops. Very good over hams. 1130, three quick descending pitch chimes and into island choral hymns. (Perdue ALA 5-6)

PERU R. Chanchamayo, 4895, heard 14 and 15 May 0440-0501*; Cachimbo tunes, DJ w/ ID during s/off annmcs. Signs off w/ NA. Fair sigs. (McNeil, DC) *** Qu'est-ce c'est "cachimbo", Pitt? tba*** R. Andina, 4955, in SP 0512-0555* w/ more requests for Mother's Day. ID as "R. Andina ENRAD Peru." No NA at close. (Bloch, MD) +++ R. Jaen, 5005.5, in SP 0427-0524; mix of tead-itional and more up-to-date mx, former being nice mix of guitar and pinquillo flute mx w/ cheery yipping. DJ in once in a while w/ talks, TCs and so on. Poor but clear. First time heard by me since Aug. 78. (McNeil, DC 5-14) +++ R. Eco, 5010, in SP *1015-1023; M&W annrcs mand IDs. Excellent lately w/ Andean/Indian flutes, latin mx and yip-ho stuff. Usually OK to 1045. (Perdue, ALA)+++ R. Libertad de Junin, 5040.5, regularly 0415-0530+; fairly modern campo mx, DJ often in w/ TCs, dedications, mensajes, IDs and such. Not heard here since early '75. (McNeil, DC)---R. Libertad also noted 0550-0805 13 May on all night w/ morw Mother's Day requests. Sierra mx. ID: "R. Libertad de Junin. Tnx McNeil for tip. (Bloch, MD) +++ R. Loreto, 5050, in SP 0510-0619; standards and Peruvian mx. IDs by cool DJ. (Perdue ALA) +++ R. Victoria, 6020, in SP 1030; M annr w/ ID, TC, easy LA mx. Some splash from AFRTS. (Klein, FLA 5-13)

ROMANIA Bucharest, 11940, in EH 0130-0230; this freq still in use despite other contrary reports. RCI QRM 0157. (Sherman, MINN)

SOLOMON IS. SIBS, 5020, in EG 1125-1132*; island mx, old US pops, closing annmcs by M, freqs, NA. (NA sounds like it should be an alma matter for a school!) (Perdue, ALA 5-5)---SIBS also noted 0835 w/ island mx, M annr w/ Australian accent, and nx. Not bad in QRN. (Klein, FLA 5-13)

SOUTH AFRICA RAS, 5980 rf, 0200-0250 in EG to Nam. Replacing 15220 and // 11900, 9610, and 9585. (Zilmer, WI)

VENEZUELA R. Valera, 4840, in SP 0923; "Buenos dias, Venez. . . . Valera. Latin mx. (Perdue ALA 5-14) +++R. Maturin, 5040, in SP *0950. NA, band mx, "Amigos oyentes, muy buenos dias." ID, calls, freqs. (Jones, MISS 5-9)

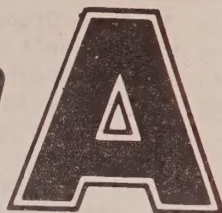

Despite many complaints of high QRN, much excellent DX reported this time, especially the PNGs and Peruvians. The deep skip is in so don't let the QRN slow you down.

Mail delivery trouble continues. PLEASE ALLOW SEVEN DAYS FOR MAIL TO ARRIVE. Shorter times are not reliable. Recent victims of delayed deliveries include Syd Osterman, Jean-Jaques Bloch, George Sherman, Terry Kreuger, Stu Klein, and others. I try to use as much of the delayed material as possible but do not always succeed. 73, *Tom*

2200 - 0400 GMT

Thanks, I needed that!! The break, that is. Many thanks to Mr. Mick Pappas who provided me with the much needed hiatus. My college years are now at a temporary end, and I'm just sorry they didn't see fit to reward me for the monthly job of editing LR-A over the past four years--I'm sure Tom Gavarras and all the other college-going SW editors agree. Returning to the dials for the first time in some weeks, I had a pleasant surprise on the 60 meter band, and judging from the logs sent in by some of you, this new station has had many people puzzled for about a month. Several excellent nights for African reception, as well as for Latin America have kept the summer blues away at least for a while. . . . Onward...

***** LR - A DX SPOTLIGHT *****

- * **NIGERIA:** IMO BROADCASTING SERVICE, OWERRI, NIGERIA is the station noted since the *
* middle of April by several reporters, on 4.755 MHz. . . 2230 UNID stn testing w/mx *
* and long pauses to around 2255* Thanks to Syd Osterman for tip who has been on *
* this one much more than I and has never hrd any amrt in any language; some of the *
* mx had a gospel tinge (Hauser 4/24) UNID 0510 w/EG pop songs, strong lvl over Em *
* Nuevo Mundo on 4/15 (R McVicar) UNID 2212-2253 EG, pops, abrupt 2253*(Valko 4/24) *
* In February 1977, it was rptd that 5 new stns would be commissioned in the capitals *
* of Bauchi, Benue, Gongola, Imo & Niger States. This is obviously the Imo State *
* transmitter and as noted here 5/20, 5/21 with the following ID: "This is the Imo *
* Broadcasting Service, Owerri, Nigeria, testing a shortwave transmitter for the *
* Federal Radio Corporation of Nigeria, FRCN Program. We are transmitting on a test, *
* frequency of 4.755 MHz in the 60 meter band from 5AM to 10AM and from 5PM to 12 *
* Midnight. Also, on 6165 MHz in the 49 meter band from 10AM to 5PM daily. Recep- *
* tion reports should be sent to the Chief Engineer, Imo Broadcasting Service, Box *
* 329, Owerri, Nigeria." Interestingly enough (or perhaps to be expected), Nigerian *
* Embassy officials here in Washington know nothing of ongoing FRCN plans in the *
* various Nigerian states, another example of diplomats being basically out-of-touch *
* with developments in radio broadcasting in their own home countries. NOTE: The *
* spelling of OWERRI was given me by two Nigerian officials, however, WRTVH has *
* **WARRI** in past editions, which is, I assume, the same city (Ye Editor) *
* *****
- 1615 **USA PIRATE WACR:** 0602-0642 EG OM DJ w/40s type mx & EL; tlk abt Mass state
to drinking law indicates probable QTH (Moore 4/8) WFAT on 1620 0922-0932* w/tlk
1630 on nuclear energy & phone-in pgm (212-283-9979) (Moore 4/15) WFAT on 1630, 0800

- *4895 PERU R Chanchamayo: 2240 IDs with Peruvian pop mx; for once I didn't here any huaynos! Strong sig 4/30; new stns really popping in at this time!(Meyer-PERU)

Once again, thanks to Kevir Meyer in Peru for his reports, a welcome to all new reporters. Some additional items: 3264 CONGO Brazzaville presumed the one here on 5/19 in vern/lang tlk by M&W, ment of Parti Congolaise du Travail; different pgm fm 4843(Bloch).....4696.7 Radio Riberalta has been back on the air here between 0030 and 0200.....4680 R Nacional de Espejo noted off the air 5/22, 5/23.....4762/4763 ---watch these two freqs for both Radio Inca del Peru and possibly Radio Abaroa, though latter more unsure..... 2390 GUATEMALA LV de Atitlan 1120 SP, mix of LA mx & marimba (Klein) and 2390 MEXICO Radio Huayacocetla 0135 pgm of long SP ballads, TC and IDs between selections (Klein) Finally, watch 4995, 5005/5007, and 5016v for some nice Peruvian and Bolivian logs--I don't say you'll find them there, but it can't hurt to try! REMEMBER, every log should have your name on it to avoid misplacing it either here or in transport fm distribution. Please try and type logs, if at all possible. When certain logs are later updated or corrected I would appreciate a note saying so, rather than my having to sift through 7½ logs for the same person for a two month period.....All the above will be appreciated.

73ssssssssss DAN

() ALL LOGGINGS FOR NASWA'S LOG REPORT SECTIONS SHOULD BE SENT TO ()
() OUR DISTRIBUTION EDITOR: DAVID WALCUTT, 1521 RUTLAND #7, ()
() HOUSTON, TEXAS 77008. HIS DEADLINE IS THE 12TH OF THE MONTH! ()

* Summer is definitely upon us, but it doesn't mean that there isn't any good DX out there, as this month's Log Report C will show. Thanks to all who contributed this month!

On to the reports.....

- 6200 ALBANIA R. Tirana; 0330 US CG Maritime Cutter "Durable" (?) frequently calling Coast Guard Radio New Orleans, with Tirana as BFO. No answer; they were probably too engrossed in Radio Tirana's programming (Hauser 4/24). 0345 English talk of Albania's liberation after World War Two (Diechmann 4/26).
- 6422 BOOTLEG: USA KVHF; 0637-0647* English ID as: "You are listening to KVHF." Abrupt s/off (Sheedy 5/6). 0223 Pop music (Dancing Queen, I feel fine, etc.) ID at 0244 "You're listening to KVHF, broadcasting (to or from) South America." At 0306 "You're listening to KVHF for a festival of hits." If you guys are reading this, could you please send me a QSL? (Terry Concannon, 11918 Groveside Avenue, Whittier, CA 90604) 5/12.
- 6400 CHINA PLA; 1423 Chinese talk and usual music (Sheedy 5/5).
- 6505 NUMBER STATION; 0210 Nice IS into Russian numbers (Valko 4/18). -What type of IS, Dave?? (tgg)-
- 6565 CHINA R. Peking; Russian ID & news w/mentions of Carter, Vietnam, etc. (Poppin 3/9).
- 6600 NUMBER STATION; 0501 Music box IS (thought I had a new pirate), then YL in German gave numbers. Very good signal (McVicar 4/15).
- 6612 UNIDENTIFIED; Following phone tip from Mike McCollam in Indianapolis, who thought they were around 6601, very weak station heard on SSB with music. 0215 just below Brazzaville VOLMET. Mike said the ID he heard sounded like R. Centro, Arecibo, Puerto Rico, which is a MW station on 1280, WCMN (Hauser 4/23).
- 6939 BOOTLEG: USA Radio Galaxy; 0445-0515 English rock & talk. Extremely weak and seemed to be RC USB, only words understandable were "one more request." Long talk to rock song "Whole lot of love." Off by 0527. Thanks to Paul Jordan who spotted this (Walcutt 4/19). 0020-0104* possible repeat of previous program, but much stronger. At 0030 claimed to be using 1KW RCA xmtr, 8-9 years old. Music opened with "Whole lot of love." Claimed to be using 850 watts. Referred to themselves as "High power Radio Galaxy," and mentioned location several times. At first I thought they were saying "Mexico", but later listening to the tape it seems they are claiming to be in New Mexico. Announced as 6940 in the 41 meter band. Also announced that their next broadcast would be on Saturday, but they failed to show. (Walcutt 5/7). 2340-0100 English announcements with rock music (Foghat, etc.) (P. Jordan 5/7).
- 6955 CHINA R. Peking; 1207 news in language (Valko 5/7). 2125* Asian lang & mx (Saylor).
- 7085 CLANDESTINE: FLORIDA R. Libertad Cubana; 0015-0035* and 0400 with Spanish anti-Castro readings by Comandante David, who also IDed twice as R. Rebelde. Is always at local level, and no doubt in Miami. Though first heard here during the Angolan civil war, the FCC apparently could care less about those agreeing with Washington. (Krueger 5/9).
- 7001 ANGOLA R. Nacional (Lobito?); 2214-2304 Portugese with OM giving speech, applause, mentions Angola, music with guitar and vocalist. 2259 possible band playing a song, then empty carrier. Off at 2304. ARO QRM (McVicar 4/14).
- 7110 ETHIOPIA VORE; 0415 Amaharic chants, talk and music. (Jordan 4/16).
- 7110 SPAIN SPR; *2055-2110 IS, Arabic news with fair signal (Krueger 4/30).
- 7120 ALBANIA R. Tirana; 0230 English ID, news, cmntry on Earthquake (Williams, Kissane).
- 7125 GUINEA Rdf Nationale; 0600 National Anthem, music on xylophone, talk by OM in French, etc. (McVicar 4/15).
- 7160 SARAWAK R. Malaysia; 1104-1438 English ID, nx & mx (Johnson, Krueger, Klein).

- 7175 SICILY RAI; 0500 Italian talk w/mentions of Yugoslavia & ID (Jordan 4/13).
- 7190 PHILIPPINES VOA; 1410 English news in Special English (Kissane 4/20).
- 7200 ENGLAND VOA; 0505 English Breakfast Show program. Good signal (Kissane 4/20).
- 7205 USSR R. Moscow; 0230-0330 English news, cmntry & orchestra mx (Williams, Thompson).
- 7210 SWITZERLAND Red Cross Radio; *0605 IS, German/Spanish program on Red Cross (Clark).
- 7215 IVORY COAST RTVI; 2317 French talk and music (Prisco 4/10). *0600 French ID after National Anthem, local music and political views (Cunningham 4/28, Cucura 4/6).
- 7215 BRUNEI RTVB; 1010+ Chinese talk, chimes, MOR music (Klein 4/28, Krueger 4/25).
- 7230 CYPRUS Cyprus Bc Corp; *2215 16 note IS, ID in language & news (Saylor 3/10).
- 7237 MONGOLIA R. Ulan Bator; 1300 Chinese with such a good level that one wonders whether or not this is a new transmitter. 7262 was vacant. (Willis).
- 7245 ANGOLA R. Nacional; 0545 Portuguese ID and African music (Moon 4/16).
- 7255 NIGERIA VON (Lagos); *0450 IS, Bells, Drums, NA into English news (Kissane 4/26).
- 7260 SOUTH AFRICA RSA; *0553 IS, English ID and news program (Kissane 4/26).
- 7265 GERMANY (WEST) Sudwestfunk; 0411 German Identification & popular music (Gliksmann 4/8).
- 7270 SARAWAK R. Malaysia; 1428 chanting and talk in language (Johnson 4/13).
- 7275 KOREA (SOUTH) R. Korea; *1359 IS, ID in English into News (Kissane 4/20).
- 7280 LIBERIA VOA; 0435 English ID and talk about Easter & Passover (Kissane 4/14).
- 7290 ITALY RAI; 1432 French ID with vocal music (Johnson 4/13).
- 7295 MALAYSIA R. Malaysia; 1058 English ID, freqs and neww program (Valko 4/26).
- 7300 ALBANIA R. Tirana; 0330+ English ID, News, cmntry against China (and the rest of the world, in fact), etc. (Woltman, Jordan, McClellan, Kelly, Kissane, Johns).
- 7310 BOOTLEG: MINNESOTA Voice of Venus; 0440 English ID & Rock music after phone call from station. (F.Osterman 3/11).
- 7345 CZECHOSLOVAKIA R. Prague; *0300-0357* English Saturday Night weekly record quiz, news, folk music, etc. (Johns, Kissane, Byron, Dieckmann, Simaschko, J. Williams).
- 7386 LAOS National Radio (Savannakhet); 1320 Lao talk and news w/good level (Willis 5/1).
- 7400 USSR R. Moscow; 0230 Spanish ID & music (Williams 4/15).
- 7400 USSR R. Kiev; 0300 English ID, Ukrainian Panorama & Hello from Kiev (Alexander, Williams).
- 7425 BOOTLEG: FLORIDA R. Liberation; *0200 IS (Oh what a beautiful morning) on music box, ID and usual programming in English. At 0500 FCC closed station down permanently. This was the final broadcast (Klein 4/8). * To those involved with R. Liberation: Thank you for the QSL & Pennant!!! How about an article for FRENDX about your station? (tgg)*
- 7465 BOOTLEG: MINNESOTA Voice of Venus; 0133-0200. Called Marty Bordt of Prescott, telling about broadcast. Rock music, IF's, news, weather, book of the month, interview with Steve the mute, music, etc. ID as "You're tuned to North America's first numero uno sideband pirate...." Inviting phone calls at 212-283-9979. Scott Wild IDing at close, then played King Tut by Steve Martin. Off at 0200 (McVicar 4/30). 0130 called to announce test, but inaudible. Claimed 300 watts (Radcliff 4/29).
- 7500 AUSTRALIA VNG Time Station; 0750 English ID & time pips (Alexander 4/7). 1110 English w/time pips & ID (Simaschko 5/4).
- 7588v CLANDESTINE: NICARAGUA R. Sandino; 0400-0530 Spanish ID's, anti Somoza cmntry, marches, etc. (Ottaway, Getzel, Rankin, Underdown, Brookwell, Moore, Higgins, Saylor, Sheedy, BULGARIA R. Sofia; *0430+ Albanian ID, News & mx (Jordan, Cucura). & Field).
- 8639 GERMANY (WEST) DAM (Hamburg); 0500 German talk, ID & chorus music (Jordan 4/15).
- 8903 HONG KONG Hong Kong Radio; (e.f. April LR-C); *1215-1219* English w/6 pips, "This is Hong Kong Radio" into usual Volmet reports. Just like Tokyo Volmet-To me this is a utility station! (Sheedy 4/13). -Agreed (tgg).
- 9022 IRAN VOI; 2005 English news, cmntry & Western music (Baker 4/17). 2253 lang w/ chanting (Valko 4/19).
- 9290 CHINA R. Peking; 0006 Chinese news and identification (Getzel 4/21).
- 9325 NUMBER STATION; 2315 English (with German accent) readings of 5-digit numbers, good signal. (Baker 4/13 & 4/24).
- 9360 SPAIN SFR; 0320-0440+ Spanish news and music (Bryan 4/22, Jordan 4/27).
- 9380 CHINA R. Peking; 0345 Spanish talk with many ID's (Jordan 4/27).
- 9420 KOREA (NORTH) R. Pyongyang; 0920 English w/usual cmntry (Nikolich 3/27).
- 9423 CLANDESTINE: CHINA, PEOPLES REPUBLIC V. of Thailand; *1200 IS, Thai talk (Saylor 3/17).
- 9455 EGYPT R. Cairo; 0455 Arabic ID, Arabic singing, birds, etc. (Bryan 4/11).
- 9460 CHINA R. Peking; 0930 English news, folk music, etc. (McKinney 3/1).
- 9475 EGYPT R. Cairo; 0230 English world news & Wild Egyptian mx (Tomkewich, Kissane).
- 9500 ALBANIA R. Tirana; 1333 IS, talk in lang, music w/some QRN (Kissane 5/2).
- 9505 DOMINICAN REPUBLIC RTVD; 0045 Spanish ID & ballads (Jordan 4/27). 2320 Spanish ID and address as "Aptdo 969, not 965 as in WRTVE/5967. (Krueger 5/1). 0200 RTVD has been more active irregularly evenings here, with MW service simulcast, no doubt gearing up for international service. Noted 4/17 with half hour news programs. Dominates frequency better than I anticipated, but modulation is fuzzy (Hauser).
- 9505 JAPAN R. Japan; 1000 English news & folk mx (McKinney 4/23). *1400 English news, music and talk (Simaschko 5/6).
- 9510 PERU R. America; 0045 Spanish ID, mentions of L.American countries, etc. (Jordan 4/20).
- 9510 USSR R. Moscow; 0120 English interview w/visitor from U. of Florida (Abbey 4/8).

- 9515 GREECE VOB; 0215 English news & ID (Alexander 4/7, Brookwell 4/25). 2325 English ID and programming (Valko 4/12).
- 9515 TURKEY VOT; 2130 IS, English ID, News & folk mx (McKinney 4/19). 2220 English mailbag program (Dieckmann 4/28).
- 9520 PAPUA NEW GUINEA NBC; 0700 English w/country mx & commercials for almost every conceivable product (Findlater 4/26, Moon 4/13).
- 9525 POLAND Polish Radio; 0200 English news and commentary (Kelly 4/28).
- 9535 CANADA RCI; 0100 English news, etc. (Reini 5/7, Rubin 5/7). 0136 Spanish news & sports (Halsema 5/2). 0217 English w/DX Digest (Abbey 4/23).
- 9545 ANTIGUA DW; 0540-0550* English weekend magazine pgm & ID (Nikolich 4/2).
- 9545 SOLOMON ISLANDS SIBC; 0715 English ID, RNZ News, pop mx (Cress, Sheedy).
- 9550 CUBA RHC; In a development probably related to the 9600 & 11840 items, noted in Arabic 1503 at an unlisted time; rather low frequency too (Hauser 4/22).
- 9550 NORWAY R. Norway; 0350 Norwegian talk, ID & pop music (Johnson 5/3, Bryan 4/1).
- 9560 CHILE V. of Chile; 0400 English news broadcast (Harrington 5/2).
- 9570 ROMANIA R. Bucharest; *0130-0230* English news, Youth Club featuring Henry Fonda reading from Anne Frank's diary, etc. (Byron, Nikolich, Baker).
- 9575 FINLAND R. Finland; *2126 ID in English & News. Poor w/QRM (Valko 5/1).
- 9575 ITALY RAI; 0100 English ID, talk about Pope, cmntry, etc. (Hinton 5/4, Kissane 5/1).
- 9580 AUSTRALIA R. Australia (Shepparton); 1130-1300* English news, Australia Tonight, and Mailbag program. (E.Hoffmann 4/20, Fraser 4/18, Davenport 4/29).
- 9580 KOREA (SOUTH) R. Korea; 1005 English ID, news & talk on U.S. commitment to South Korea. Good clear signal (P. Jordan 3/17).
- 9585 JAPAN R. Japan; 1200 English news program (Harrington 4/1).
- 9585 SOMALIA R. Mogadishu; 0455 lang ID and African mx program (Cucura 4/5). & Fraser)
- 9590 NETHERLAND ANTILLES R. Nederland; *0230-0320* English Newline, Triple S Show (Kelly
- 9595 JAPAN NSB; 1535-1615* English w/Tokyo Forum & many ads (Hartsell, Kissane, Grenier, Moon).
- 9600 CUBA R. Moscow Relay; Following tip from David Crawford, o-f R. Moscow via Cuba on 9550 4/17 in local afternoon, RMWS first noted here 4/22 1259 closing to Asia, but staying on to Oceania (not referring to this frequency!) with very strong signal, stronger than RHC 9550, and no flutter; rock steady unlike weak choppy NHK 9505, and Europeans audible on band; conditions were disturbed with 11m dead, 13m poor, no BBC on 15070. At 1307 had tones on & off, hum and cut carrier at 1325. Was strongest signal on band, stronger than VOA. Subsequent checks showed regular usage until 1300, opening around 1100. RMWS also being relayed in the evenings, when it is less obvious as the signal doesn't stand out from all the other RMWS frequencies. At 0450 check 5/7, this frequency was a word behind all the other freqs checked--including those from Bulgaria e.g. 11735, 11720, 12060, 15480, 17880, 17825, 9530, so this one at this time is satellite fed, and has same audio quality as 9600 & 11840 in the daytime. Audio cut at 0459; 0516 carrier still on. 5/8 not on at 2300 check, but was on at 0115. (Hauser). Seems to sign on around 0000 w/English & North American Service w/excellent signals (Gavaras). 0100 English ID & cmntry on Lennin (Williams 4/22). 0330 English contest announcements (Harrington 5/2). *1100 World Service Programming (Krueger 4/30, Shaffer 5/1).
- 9605 SWEDEN R. Sweden; 0329 English ID into Swedish program (Lineback 4/8).
- 9610 SOUTH AFRICA RSA; 0200 English s/on into news program (Harrington 3/31).
- 9610 AUSTRALIA ABC (Perth); 1055-1600 English news, musical request, ID, etc. (Abbey 4/13, McKinney 4/25, Radcliff 3/5, Fraser 4/21, Kissane 5/2, Byron 4/11).
- 9610 MONACO TWR; 0630 English w/radio Bible class (Getzel 4/22).
- 9615 VATICAN STATE Vatican Radio; 0122 Unscheduled Mass in Latin (Brookwell 4/21).
- 9623 VIETNAM VOV (Ho Chih Minh City); 1300 Good level; heard as early as 0900 with Viet talk & music, although this is not the station on 9628 (Willis).
- 9625 VATICAN STATE Vatican Radio; 0630 Italian ID w/services in Latin, English, French and Italian (Dieckmann 4/13).
- 9625 CANADA CBC NS; 1525 French Northern Service variety (Halsema 5/1).

log report *section*

11700 TO 17699

BOB BROWN

As you can see by the heading we have an abbreviated section this month. For a trial period we will have an "E" section, due to the large amount of reports to this section. This month for example, I received about 600 loggings just for the 25 & 19 meter bands. There is not enough time to handle the amount for the full section. It would help greatly if those of you who are sending in reports of just a few minutes duration which don't say anything, would screen your loggings & only send in the interesting ones or those that are not heard too often. We need quality not quantity.

- * * * * *
- 11705 AUSTRALIA RA; 1330-1400 EG, Music (Simaschko 5/6)
 - 11705 FRANCE RF; 0400-0522 FR, American Songs (Earhart 4/22, Harrington 5/2)
 - 11715 BELGIUM BRT; 0022-0100 EG, "Brussels Calling" w/ Nx, Mx, Cmnty (7-Reporters); They quickly got the word that 11705 was no good & shifted here, making a quantum jump in audibility, but they had an over-modulation problem when checked on 4/1 (Hauser TN)
 - 11715 MOROCCO VOA; 0647, Male Chorus under EG talk. Didn't sound like a relay of a USA PROGRAM (Brookwell 5/1)
 - 11720 CHINA R Peking; 0905-0915 W w/ EG Nx & cmnty on Vietnam (Jordan-Pa)
 - 11725 VATICAN VR; 2331-2342 ID M & W w/ news in SP (Cucura 4/4)
 - 11740 MADAGASCAR R Neth; 2115 "Afro Scene" in EG, s/off, good (Sellers-Ont)
 - 11740 OMAN BBC; *0340 IS, ID into AR tk & chant (Crest-Va 3/14)
 - 11750 BULGARIA R Sofia; 2130-2200 EG ID, Nx (Williams 4/22); 0430 Doing as they did last summer, a new freq to NA. Now BBC & Norway can fight it out on 11860 (Hauser-Tn 4/28)
 - 11750 SAUDI ARABIA BSKSA; 0522 FR tk w/ mx, Tentative ID (Earhart 4/22)
 - 11760 AUSTRALIA RA; 1025 EG ID & IS into CH pgm. (ZILMER 5/1)

Very difficult to squeeze 600 loggings into 3 pages but I did my best.

73's till July, 36

log report

section

17700 & ABOVE

TRANSITIONAL EDITOR: David L. Waleutt

JUNE, 1979

If you are interested in editing this column, please contact Mac Leonhardt at NASWA Headquarters a.s.a.p., and if you have been a regular reporter to the log sections, then drop me a line --- I'll plug you for the position!

Officially this new section is only a trial, but I believe it will be able to stand on its own and become permanent. I can state from experience that the number of reports for the old "D", month after month, amount to as many as the other three sections combined. While this does not imply anything about the quality of the loggings, the fact is that there are so many reports for 11700 and above that 80% of the editor's time is spent on sorting out the items by frequency country etc. -- rather than on actual editing and typing. The original sections were divided by frequency when NASWA had, maybe, 850 members. But now there are 2000 and there is a definite tendency for new members to prefer the higher frequency bands in their reports. So the situation is that "D" has become too big a job for one person; we are going to try doing it this way. The new Section "E" will have two pages on even numbered months like June and December, and one page on the odd numbered months such as March and November. The new "D" and "E" combined will still consist of 5 pages total. So, any volunteers? Let's hear from you!

- 17710 JAPAN R. Japan; 0820 EG to Eur., on industrial development vs. environment, good (Klein-FL 4/11).

Music Page

Just about anywhere that shortwave programming is discussed at length, it is inevitable that a number of people indicate that listening in on a foreign country's regional transmission is preferable to listening to the same country's foreign service because there is a more ethnic flavor, and--thank heaven--less of the Western music that seems to have invaded the world, especially annoying with the current wave of disco music. These people never tire of relating the thrills of catching an African regional and admit great fascination with their traditional music.

Strange? Not at all, you might say--this is the very essence of the "DX bug", the motivation to seek that which is new, to adventure into that which is not familiar... Yet in a way, it is strange for there is as much difference between disco and traditional African music as there is between the computer and the abacus, or between a Cadillac and a Model T: one is simply an evolved version of the other.

When one looks at "Western music" from an historical standpoint, it shouldn't be hard to see that the term "Western music" is at best an indefinite catchall term used to refer to whatever is currently popular with North American/European recording industry. Go back far enough, and "Western music" was nothing more than your medieval troubador armed with nothing more sophisticated than lyre or lute, the predecessor of the Renaissance style, which borrowed a bit from the Greeks, which proceeded to lead to the Classics of Bach's day...which somehow never made it across the Atlantic successfully with the Europeans when they colonized North America where survival was the name of the game rather than preservation of a growingly distasteful culture that was eventually rebelled against.

With a musical mainstay of hymns and home-made folk songs in North America and nothing but Classical music in Europe, how on earth was rock, then disco, born?

Blame it on the slave trade of the 1800's. Yes--Africa.

Recall a previous Music Page that described most sub-Saharan music as being based on a difficult-to-shift pentatonic scale that translated to the European music system as sharps and flats (basically speaking). When Africans started coming into North America and Europe it was of utmost necessity for them to learn European languages and European ways, and the simplest European/American types of music to learn was the hymn. However, it was difficult for the slaves to learn the hymns as they were written because they simply weren't used to the European idea of note progression and they would sing a note here and there as either too sharp or too flat...leading to the development of the "Negro Spiritual" and the standard four-bar blues. "Soul" came into being, and the European (white) saw it was good and incorporated it into his own music, especially in the United States where we will now focus our attention because its development of the recording industry had developed to be a world influence in conjunction with its developments in electronic communication.

Blacks became entertainers on plantations, the "jesters of the court" so to speak, as well as laborers, and in an effort to artistically thumb their noses at their masters, slaves invented the "jam session" the purpose of which was to make musical noise--and for some reason or other it caught on as major entertainment on showboats. You know it as "dixieland" music. Jazz had similar beginnings, when blacks were looking for another means of nose-thumbing and came out with a more involved study of disharmony and expression of soul...which again caught on with the white population.

Yet in the early days of the recording industry the nearest thing to a black performer was Al Jolson, while composers like Scott Joplin went undiscovered until recently. Bing Crosby, the Andrews Sisters, Glenn Miller...just about anywhere you turned for music those days, you could find the traditional African sharp/flat characteristic used as a technique of vocal expression, if not outright borrowing of the four-bar blues, jazz, and dixieland. Then inroads were made into the entertainment world by "Jelly Roll" Morton of boogie-woogie renown, Louis Armstrong, Billie Holiday...

Popular music, folk music, country/western, and soul--classifications of music familiar to us in the USA, classifications that really aren't well-defined these days as they used to be because of all the intra-company material cross-over--all have exhibited some version of blues and other black music technique, like Elvis Presley who made hit after hit in each of the above-mentioned classifications by extensive use of black-style music (and dance, in his films). And so it was, even to today--whatever was

popular on the soul scene was later adapted to the popular/rock scene.

And that brings us to disco. The Afro-American had his version of it a good while before the Euro-American decided he could make money on it by turning it into what the Afro-American terms "blue-eyed funk"--alias "disco". And it all came about due to yet another black music experiment in going back to traditional African beats and dances while retaining essences of the Afro-American experience.

Are you one of those who doesn't like the "disco craze"? You are not alone--you have company with those from whom it was borrowed. Does it sound like a re-run of the era when the watusi took over the twist which took over the jitterbug which took over two-by-two dancing? You're right, it is. Yet disco, a type of music that can't be fully appreciated if it isn't danced to, is apparently a world-wide popular success especially with the under-25 segment of the population as they are more prone to "strut stuff" than those in their prime (though I've seen exceptions up to the age of eighty!). Perhaps it's because it's just plain fun, so think twice about what you may possibly be missing by avoiding it!

Charley Hoffman of Pennsylvania sends in this about a Japanese instrument...

THE KOTO

Let's take a brief look at a string instrument which most of us confess to know little about: The koto. What does the koto look like and when and where did it originate? The instrument averages about six feet in length and ten inches in width, and has thirteen strings of wound starched silk of equal thicknesses. There are thirteen small bridges, one for each of the strings.

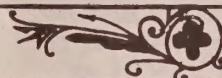

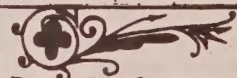

Tuning is changed by shifting the movable bridges to a new position. The strings are struck with three ivory picks which are attached to the thumb, forefinger, and middle finger of the player's right hand.

If you've never seen a koto before and are still puzzled by this brief description, check with one of your DX friends who collects QSL cards. Your friend's collection might include a very beautiful color card of a "Doll Modeled After A Court Lady Playing the Koto" from Radio Japan.

Japan, by the way, is only part of the answer to the question "when and where did it originate?" The exact date of origin is not known, but it can be safely said that the koto is one of the oldest musical instruments in the world. The instrument originated in China and its introduction to Japan is also filled with much mystery. This much is known: China presented a koto as a tribute to the Japanese Todaiji Temple constructed in 755 AD. Later a certain Sadatoshi Fujiwara travelled to Japan and taught koto techniques learned in China.

My first experience with the koto was in 1971-73 while stationed with the U.S. Army on the island of Okinawa. Countless hours were spent on guard duty with a Japanese counterpart whose portable radio would be tuned to a local NHK station with endless hours of koto classical music. I must admit that at first I disliked the strange sounds emitted by this strange oriental instrument, accompanied by gongs, drums, and the samisen, a form of banjo which usually accompanies the koto.

You too can experience this unique music. Try tuning to the international and domestic services of China and Japan, and you may become hooked on the fascinating music of the Orient.

 Diane Lévesque P. O. Box 2573 Carbondale IL 62901 

HELPING HAND: For sale. Realistic SX-190 communications receiver only six months old. 60 meter SW band and 15 meter amateur band have been added. Must sell for family reasons. Was \$450 new, asking \$350 but not firm. Receiver is truly in brand new mint condition. Richard Jordan, Box 640, Bolton, Ontario, Canada LOP 1A0.

HELPING HAND: For sale. Yaesu FRG-7 with special \$50 professional modification by Ham Radio Outlet which includes filter for improved selectivity, parallax correction feature. Excellent condition, 1½ years old. Price \$260. David Greenes, 38 Grey Lane, Lynnfield, MA 01940. Phone (617) 334-6306 (not collect).

NOTICE

An informal gathering of interested DXers and SWLs will be held at the home of John Kapinos in Shrewsbury, MA on July 22. All who would like to attend are cordially invited to this meeting which will begin around 10 AM. Bring your own food and grog, charcoal will be provided. For further information call John M. Kapinos, 86 S. Quinsigamond Avenue, Shrewsbury, MA 01545, phone 617-798-0378 or Bob Wirrell, 85 Stillman Avenue, Brockton, MA 02402, phone 617-588-6313.

NOTICE

HELPING HAND: For sale. One copy of the 1979 World Radio TV Handbook, brand new and unused. Price \$10. Contact Edward Pyatt, Apt. 202-West, 1200 Columbia Avenue, Philadelphia, PA 19122

HELPING HAND: For sale. Panasonic RF-2800 with manual. Price \$150 includes UPS air shipping. David Morck, 7921 Springer Street, Downey, CA 90242 or call (not collect) 213-869-8932 after 4:30 pm PST. Money order only, please.

HELPING HAND: For sale. Worcester SM-2 broadcast band antenna, Telex "Twinsset" headphones and Franklin 24 hr. GMT clock. Will take best offer. James C. Hartung, 601 Rowe Drive, Aberdeen, MD 21001. Phone 301-272-2833.

HELPING HAND: For sale. Realistic DX-160....\$120. Datong FL-1 Frequency Agile Audio Filter....\$150. Mizuho SX-59 Preselector....\$60. Gilfer C-10 Calibrator....\$30. All items in mint condition! "Combination Price" for all items....\$335. I pay UPS to your door. Bob Jacobson, P.O. Box 1617, South Lake Tahoe, CA 95705 or phone 916-544-3120 (not collect, please).

HELPING HAND: For sale. Realistic DX-150B in very good condition with an outboard 100 kc calibrator. Price \$95. Heathkit GC-1A general coverage receiver in good condition. Best offer accepted on this model. Allen Black, Rt. 1, Box 378, Longs, SC 29568. The \$95 includes shipping.

HELPING HAND: For sale. Yaesu FRG-7 with Gilfer filter to increase AGC release time and improve selectivity. \$225 in mint condition. Also for sale. RF-4800 Panasonic 10 band receiver with digital frequency display. \$375 in mint condition in original carton. George S. Miller, 101 E. McNab Road, Apt. 226, Pompano Beach, FL 33060.

HELPING HAND: Wanted. "FRIENDX" back issues (buy or borrow to read and copy) '75: Mar, Sep; '77: Feb, Mar, Nov; '78: Jan-Mar/Jun-Sep/Dec. Alan Brinkley, Rt. 5, Box 184A, Chapel Hill, NC 27514.

HELPING HAND: For sale. Drake SPR-4 with MS-4 speaker, 5-NB and calibrator and 2.4 kHz selectivity. Mint condition. Crystals for all SWL and ham bands. \$350 takes all. Art Burke, 503 Spanish Trace Drive, Altamonte Springs, FL 32701. Phone (305) 869-4782 between 0000-0300 UTC. No collect calls, please.

HELPING HAND: Dear DXer: I am looking for an antenna for my car for shortwave DXing while I am driving on the highways of Colorado. What do you suggest I get for "Mobile Shortwave DXing" antenna? Do you know of a 12vDC "Pre Amp"? I want a SWL mobile antenna for 6,9,11,15,17,21 and 25 Mcs. Hope to hear from you soon. Sincerely, Rob Harrington, 3181 S. York Street, Englewood, CO 80110.

HELPING HAND: SWL QSL card collectors! I would like to swap cards with any NASWA member who has a WDX, WPE or SWL number. Send me one of your cards and get one of mine in return. Steven Dhein, 207 E. Main Street, Chilton, WI 53014.

PLEASE READ MAC'S NOTICE CONCERNING "HELPING HANDS" ON THE ROLL CALL PAGE.
